# WHY SMART CABINETRY

**CUSTOMER FOCUSED. BUDGET CONSCIOUS. RAPID DELIVERY**

Smart Cabinetry has grown since 2004 into a nationally recognized brand. We work relentlessly in order to meet and exceed our customer's expectations.

We create long-term relationships with customers, employees, suppliers, and the communities in which we live and work. These relationships, based on openness, integrity, and trust are what keep us motivated.

Our customers are our most important resource, and we work to satisfy every need.

# OUR GUIDING PRINCIPLES

**INTEGRITY** The foundation for all that we do. Integrity includes honesty, decency, consistency, and courage.

**DIALOGUE** We are open to diverse points of view and actively engage in thoughtful dialogue. We commit ourselves to broaden our understanding of our issues to better address the needs and concerns of our customers and each other.

**TRANSPARENCY** We ensure that information is available, accessible and understandable.

**SHARING** We share knowledge and technology to advance our understanding, improve our products and environment.

**BENEFITS** We use sound and innovative manufacturing practices and thoughtful and effective stewardship to deliver high-quality products that are beneficial to our customers and the environment.

**RESPECT** We respect the religious, cultural, and ethical concerns of people throughout the world. Our highest priority is the safety of our employees, the communities we operate in, our customers and consumers, and the environment we live in.

**OWNERSHIP** We create clarity of direction, roles and accountability, build strong relationships with our customers and external partners, make wise decisions, steward our company resources, and take responsibility for achieving agreed-upon results.

**FOSTER A GREAT PLACE TO WORK** We ensure diversity of people and thought, foster innovation, creativity and learning, practice inclusive teamwork, reward and recognize our people.

# CABINET FEATURES

## STANDARD CONSTRUCTION

1/2" Nominal (12mm) particleboard with light maple laminate interior and designated laminated exterior.

I-Beam Construction Rails are 1/2" Nominal (12mm) particleboard. Rails are hot melt glued into face frame, sides, and cabinet back.

5/8" Solid Dovetail Drawers feature four sided construction and captive 1/4" Nominal (6.4 mm) matching laminate bottom. Includes Epoxy Coated drawer slides (75 lb Dynamic)

3/4" Nominal (18 mm) Edge Banded Shelves provide both a matching appearance with the interior of the cabinet, and improved water resistance.

6-way adjustable hinges are heavy duty, self closing, and concealed within the cabinet door and frame.

## UPGRADE FEATURES

5-Piece Drawer Front

Full Extension Drawer Slides (100 lb Dynamic)

Undermount Soft Close Drawer Slides (75 lb Dynamic)

Soft Close 6-way Adjustable Hinges

## ALL PLYWOOD CONSTRUCTION

1/2" Nominal (12 mm) plywood with light maple laminate interior and designated laminated exterior.

I-Beam Construction Rails are 1/2" Nominal (12 mm) plywood. Rails are hot melt glued into face frame, sides, and cabinet back.

5/8" Solid Dovetail Drawers feature four sided construction and captive 1/4" Nominal (6.4 mm) matching plywood bottom. Includes Epoxy Coated drawer slides (75 lb Dynamic)

3/4" Nominal (18 mm) Edge Banded Plywood Shelves provide both a matching appearance with the interior of the cabinet, and improved water resistance.

6-way adjustable hinges are heavy duty, self closing, and concealed within the cabinet door and frame.

## MAX & ULTIMATE CONSTRUCTION\*

Max Construction features a 3/4" ACQ pressure treated solid lumber toe kick.

Ultimate Construction features a 2"x6" ACQ pressure treated solid lumber base perimeter touching the floor.

\* (Max and Ultimate Constructions both have the same All Plywood Construction features shown to the left)

# DESIGN OPTIONS

LEXINGTON - MAPLE - STANDARD OVERLAY - STAINED IN PECAN

Need inspiration for your next project?

This section features our selection of door styles, available materials plus their finishes to help you plan your kitchen and bath projects.

Find more kitchen and bath ideas using our cabinets at:

[smartcabinetry.com/gallery.php](http://smartcabinetry.com/gallery.php)

# WOOD TYPES

The type of wood or material that you choose is as much important as the style of your cabinetry. Each wood type holds and absorbs finishes differently. Different material types also feature their unique grain and characteristics.

**MAPLE**

**RED OAK**

**FIBER BOARD**

# FINISHES

The coatings applied to our cabinets consist of LOW VOC environmentally safe materials. All top coats and stain finishes used by Smart Cabinetry meet or exceed Green Guard Emission Standards. In addition to our environmental stewardship, our coatings have a high durability: resistance of stains, abrasion, chemical, impact, and scratch resistance are among our long list of advantages.

Smart Cabinetry's coatings create less waste and use less energy which ultimately allow us to continue our mission to deliver above industry value at affordable prices. Naturally, however, your choice of wood species will have the most impact on the cabinet's final appearance, because wood grain and natural characteristics will show through stain colors. Color stains will render the actual color of the cabinet, bring out the natural beauty of the wood, and amplify those inherent "character marks".

Softer areas of the wood will accept more stain and often appear darker than other areas. Potential natural variances in color cannot be controlled even with the latest technology in diamond tooling and sanding in multiple stations through out our facility. Differing densities inherently create different effects regardless of the hours expended selecting only the finest hardwoods.

**STAIN**

**PAINT**

**THERMOFOIL**

**THERMOFUSED  
LAMINATE**

# EDGE PROFILES

Our door styles offer 3 types of edge profiles. The type of edge profile that your chosen door comes in can have an impact on the overall feel of your space. A reverse edge profile, for example, allows for the opening of the cabinet or drawers without the need for the installation of door handles.

**SQUARE EDGE**

**REVERSE EDGE**

**REVERSE EDGE**

# OVERLAYS

Overlay refers to how much of the door and drawer fronts cover the cabinetry frame.

**STANDARD OVERLAY.** This overlay shows a 1" reveal on all sides.

**MODIFIED FULL OVERLAY.** A modified full overlay leaves a 1/4" reveal on the sides, while leaving a 1" reveal on the top and bottom to allow for countertop and trim.

**FULL OVERLAY.** This style of overlay leaves a 1/4" reveal on all sides and in between doors and drawers. This reveal emulates the visual style of a frameless cabinet.

# ORDERING/ORDER PROCESS

Smart Cabinetry customers can place orders by submitting an order form or by using our convenient Online Ordering System (tutorial on page 72). Contact your Sales Representative with questions.

## ORDERING USING A FORM

1. Direct your browser to [smartcabinetry.com/forms.php](http://smartcabinetry.com/forms.php)
2. Choose the "New Order Form"
3. Fill in order information:

### TIPS:

- "PO#" must be unique per order.
  - Door style, finish, and construction type must be unique per order. A new form must be completed for additional options.
  - Use the notes field for order specific information (example: delivery instructions, delivery time, special cabinet modification, unit information, etc.)
  - Make sure to enter a delivery date, when the order needs delivered past our current lead times, or has a specific delivery request.
4. Save Order Form
  5. Submit to [orders@smartcabinetry.com](mailto:orders@smartcabinetry.com)

## ORDER PROCESS

The following process takes place for standard orders:

- Order Submitted
- Order Entered and Confirmation Sent
- Change/Sign-Off Period of 24 Hours Starts
- Order Scheduled at Current Lead Time
- Order Purchased (12-14 business days before build date)
- Production Begins (7 business days prior to build date)
- Delivery Scheduled (3-5 business days prior to ship date)
- Order Built (day cabinets are assembled)
- Ship Date (day cabinets leave our production facility)
- Order Delivered (1-8 days after ship date)

# ONLINE ORDER ENTRY TUTORIAL

As a Smart Cabinetry customer, you have access to the Online Ordering System. We encourage all of our customers to utilize the Online Ordering System to ensure accuracy and an accelerated processing of your requested orders.

If you have any questions regarding your customer account, please contact your Sales Representative.

1. Direct your browser to [smarcabinetry.com](http://smarcabinetry.com).
2. Enter your user name and password into the corresponding field, and press the "LOGIN" button.

**NOTE:** Contact [customerservice@smarcabinetry.com](mailto:customerservice@smarcabinetry.com) for this information.

**NOTE:** Our system is designed to work with most web browsers. For best results, please use either **Mozilla Firefox -or- Google Chrome**.

3. Dashboard overview:

**NEW:** To enter a New Order, JCO, or Quote, press the "NEW" button on the Orders section.

**COPY:** To copy an order, select the check box next to the order you would like to copy and press the "COPY" button. This will load the order into our system and allow for changes to be made. Only incomplete or not submitted orders may be copied at this time.

**DELETE:** To delete an order, select the check box next to the order you would like to delete (you may select more than one).

**SUBMIT:** To submit an order, select the check box next to the order that you would like to submit (you may select more than one).

4. Fill in order information:

Begin completing your order by entering the required data. All order information must be filled in before cabinets or accessories can be added to the form.

**TIPS:**

- "Customer Purchase Order Number" must be unique per order.
- Set a value for "Estimated Multiplier" to see your net cost updated in real-time.
- As items are entered, more lines will appear below.
- Items entered that do not exist in our online database will be highlighted in red. Items will be submitted to us, but no pricing or cubes will show until we approve or correct the item.
- To delete a line item, press the "X" to the right of the line.
- When finished press the "CONTINUE" button.

6. Review your order:

- Check to be sure all items have been entered correctly. If you notice a mistake, press the "EDIT" button to change items on your order.

# LOGISTICS FREQUENTLY ASKED QUESTIONS

## WHEN DOES MY LEAD TIME BEGIN?

Lead time begins after the 24 hour confirmation review and sign-off process.

## CAN I GET AN ESTIMATE FOR MY SHIPPING COSTS?

Estimates are available on request. Please contact [logistics@smartcabinetry.com](mailto:logistics@smartcabinetry.com) for a quote. Freight estimates are valid for thirty business days from date of email sent to customer . Freight estimates are calculated and quoted by the most economical mode of transport.

## HOW DO I KNOW WHEN MY CABINETS WILL DELIVER?

For the actual date of delivery, please contact the shipping department 3-4 days prior to the projected ship week listed on your order confirmation.

## HOW MANY CABINETS CAN SHIP ON ONE TRUCKLOAD?

250-300 cabinets or 3,000 cubes are standard for one truckload (subject to change according to SKU sizes).

## WHAT ADDITIONAL SERVICES ARE AVAILABLE WITH DELIVERY?

Services like lift gate and driver assist may be available at extra cost. For a complete list of accessory charges contact [logistics@smartcabinetry.com](mailto:logistics@smartcabinetry.com).

## WHAT IF MY SHIPMENT IS DAMAGED?

Upon delivery notify the delivery driver of the damage and request that he/she make a note of the damage on the Bill of Lading (BOL). Sign the BOL, as proof of delivery and include identified damage noted on signed BOL. All damaged items need to be accepted by the customer. Do not reject damaged items.

For instructions on how to file a claim, please review page 83.

Smart Cabinetry cannot be held responsible for any labor costs accrued during the installation of products sold via any of its channels of distribution due to claim. This includes, but is not limited to, items that may be flawed or have become damaged in transit.

**Notes:** This policy does not cover freight damages or shortages due to shipping of product. Customer must receive product in accordance with Smart Cabinetry shipping and receiving policy, and may be required to submit information verifying the claim. These policies are set by our freight carriers, so failure to comply will result in loss of compensation for the customer.

ORDERING

# INSTALLATION & CARE

SUMMIT - MAPLE/HDF - FULL OVERLAY - PAINTED IN SAGE GREEN

Thank you for purchasing our cabinets!

We are glad that you chose Smart Cabinetry. We want to make sure you continue to enjoy your cabinets for years to come.

This section features our after purchase guides such as installation tips, troubleshooting common issues, how to do minor repairs, or how to file claims for additional support.

Find more support online at:

[smartcabinetry.com](http://smartcabinetry.com) under the "Support" tab

# INSTALLATION TIPS

## **DO NOT STORE CABINETS IN A MOIST ENVIRONMENT.**

Wood products, especially one piece cabinet doors, absorb excess moisture in the air and can expand. These minor changes in size due to improper storage are not covered by Smart Cabinetry's limited 5 year warranty. Store cabinets in a dry and conditioned environment.

## **ENSURE THE FLOOR IS LEVEL BEFORE STARTING ANY INSTALLATION.**

It will be necessary to locate any uneven areas and shim or scribe cabinets in order to make the installation plumb, true and square.

## **START WITH WALL CABINETS AND BEGIN IN A CORNER.**

Measure from the corner to the first stud, and mark the measurement on the inside of the cabinet to be installed. Repeat this process for each and every stud. Drill a pilot hole through the back of the cabinet 3/4" down from the top and 3/4" up from the bottom. Fasten the cabinet to the wall with wood screws. Do not fully tighten the screws until all wall cabinets are in place.

## **PROPERLY ATTACH ALL WALL CABINETS TO A SOFFIT.**

Affix to a permanent structure by running lag bolts through the top face frame into the "2 x" structure directly overhead.

If soffit does not exist, the cabinets must be attached to an adjoining cabinet which is affixed to a permanent interior structure. For end of run cabinets, install a tall end panel and attach to its frame establishing a "permanent" fixture which supports the cabinet.

When installing a blind cabinet, make sure the cabinet is pulled out from the wall the appropriate distance as called for in your kitchen plan. See page 28 and 38 for guidelines about blind cabinet pull distances.

## **ADJUST CABINET DOORS EASILY WITH A PHILLIPS SCREWDRIVER.**

Rotate the micro screw nearest the door to adjust side to side. Loosen middle screw, align door, and tighten the screw to adjust the door's height. Finally, rotate the cam screw near the inside of the cabinet to adjust the depth of the door.

# CLEANING / CARE

A soft cotton cloth dampened with warm water is usually sufficient to clean your cabinets. If more thorough cleaning is required, use on the following cleaning solutions:

- A mixture of dish washing liquid and warm water.
- A mild all-purpose cleaner. Make sure it does not contain ammonia, silicone, or acid.

Use the mildest cleaning solution that will successfully clean your cabinets. Stronger products may damage or discolor your cabinet finish and are not recommended. After cleaning, wipe all surfaces with a clean, damp cloth. Dry immediately using another soft, clean cloth.

## SPLATTERS AND SPILLS

Clean spills and splatters immediately. Prolonged exposure to spills, including food, water, other liquids, oil, and grease splatters can cause permanent discoloration or damage to your cabinet's finish.

## CLEANING PRODUCTS TO AVOID

Avoid using the following products on your cabinets:

- Harsh chemicals including ammonia and bleach.
- Abrasive cleaning products such as tub and sink cleaners, scouring powder, scouring pads, or steel wool.
- Sponges or dish cloths. They may contain particles that could scratch your cabinets, or they may contain food and oil residue.
- Solvent-based or petroleum-based products such as mineral spirits, nail-polish removers or paint thinners.
- Silicone-based cleaning, waxing or polishing products.

## REGULAR DUSTING

Use a clean, soft and lint-free cotton cloth for regular dusting. Packaged dusting sheets are not required or recommended. Do not use pre-moistened dusting sheets, and do not use aerosol products made for dusting.

## WAXING AND POLISHING

Waxing is not required or recommended. Over time, waxing and polishing compounds may build up on the surface of your cabinets and cause a hazy, streaky or yellowed appearance.

# CLEANING / CARE

The cabinetry you have selected has its own personality and character, as well as a richness and depth in its color and grain.

You may notice the variations in the grain and color of your cabinet if you have selected a natural or light finish.

Variations will be less apparent with darker stains. Your cabinets have been constructed from carefully selected quality hardwoods. Because imperfections are part of the natural beauty of hardwood, and not the result of the manufacturing of your cabinets, your warranty cannot cover differences in color, grain and other natural variations. Nor can it cover possible differences in color when adding new cabinetry to old.

We encourage you to enjoy the natural beauty of solid wood and appreciate those characteristics that give it personality.

## **CLEANING GLASS DOORS**

Extra care is required when cleaning glass doors. Spray an ammonia-free glass cleaner on a clean, soft, lint-free cloth or paper towel. Do not spray cleaner directly on the glass. It could seep behind the window dividers and cause damage.

## **SCRATCHES, GOUGES, AND NICKS**

A touch-up kit is available to hide surface damage. Contact the sales representative or distributor where you purchased your cabinetry to purchase the color-matched touch-up kit for your specific cabinets. Use the kit's touch-up pen to hide minor blemishes. Use the kit's tinted putty stick to fill deeper scratches, gouges or nicks. Detailed instructions are provided in each kit.

## **AVOID MOISTURE DAMAGE**

Avoid draping damp clothes or dish towels over cabinet doors. This moisture can cause permanent damage, such as peeling and discoloration, to the cabinet's finish.

## **AVOID HEAT DAMAGE**

The heat generated when using an oven's self-cleaning feature is much greater than during normal use. This heat can damage nearby cabinetry. Although this is a rare occurrence, you can minimize the risk of heat damage by removing cabinet doors and drawers nearest the oven before using its self-cleaning feature or by installing heat shields. See page 67.

## **AVOID LIGHT DAMAGE**

Exposure to direct sunlight tends to darken the color of natural wood products. Sunlight can also fade painted wood surfaces. You should consider draperies or blinds to shield your cabinets from direct sunlight.

Additional information about your cabinets can be found at [smartcabinetry.com/cabinetcare.php](http://smartcabinetry.com/cabinetcare.php).

# MINOR REPAIRS

LANSING - MAPLE/HDF - FULL OVERLAY - PAINTED IN STONE

You may encounter some unavoidable situations that create minor problems with your cabinetry. Before calling your dealer/installer for help, consider the following:

## **MINOR SCRATCHES OR DENTS IN YOUR CABINERY CAN BE TREATED WITH A TOUCH UP KIT.**

For major damage like severe scratching, broken doors or drawers, paint spills, etc., call your dealer for help or replacement.

## **IF, OVER TIME, SCREWS BECOME LOOSE ON HINGES**

You can achieve a temporary fix by gluing a small diameter dowel rod into the hole using a high quality wood glue. Cut the dowel rod flush with the top of the screw hole and place into the hole. Let the glue dry and then replace the screw. Do not over tighten, or you will risk stripping it out again.

## **MINOR DOOR ALIGNMENT CAN BE CORRECTED BY ADJUSTING THE HINGES.**

Generally, when you open the cabinet door, you will find the side-to-side adjustment slot on the door part of the hinge and the up and down adjustment on the frame portion of the hinge. Simply tighten / loosen these screws to adjust the cabinet door.

## **MINOR ROUGHNESS**

Minor roughness in end grain can be corrected with "light weight sanding paper" and top coat. If concerned please call dealer.

In most cases your cabinetry is protected by our five year guarantee from the hardware manufacturer. For hinges and hardware that do not work properly, contact your dealer for assistance.

## **WHEN ADDING ADDITIONAL CABINERY IN THE SAME ROOM AT A LATER DATE, CONSIDER THE FOLLOWING:**

To help minimize the color differences between any old and new units, place the new cabinetry on a different wall, so any color difference won't be as noticeable.

Replace existing trim and molding with darker/lighter wood to give the old and new cabinets a unified look. Experiment with multiple finishes in the same wood species for a new look.

# TROUBLESHOOTING GUIDE

Some problems that may arise during installation can be remedied with the following troubleshooting table.

PROBLEM	CAUSE	SOLUTION
<b>Doors on a double door cabinet do not line up</b>	<i>Hinges are in need of adjustment</i>	Adjust hinges until cabinet doors line up properly. Consult <a href="http://www.smartcabinetry.com/hardware.php">www.smartcabinetry.com/hardware.php</a> for information regarding hardware adjustment.
	<i>Cabinet is out of square</i>	Loosen screws in back and use shims to make the cabinet plumb. Retighten screws. Overtightening screws will damage the cabinet backing. Slowly tighten until the head of the screw is flush with the back of the cabinet.
<b>Door is not flush to the face frame</b>	<i>Hinges are in need of adjustment</i>	Adjust hinges until cabinet doors line up properly. Consult <a href="http://www.smartcabinetry.com/hardware.php">www.smartcabinetry.com/hardware.php</a> for information regarding hardware adjustment.
	<i>Hinge(s) are twisted or bent</i>	Contact your dealer for support.
	<i>Cabinet door is warped</i>	Humidity levels can cause warping. Allow door to hang through one heating season. If it remains warped more than 1/4", call your dealer.
	<i>Cabinet is out of square</i>	Loosen screws in back and use shims to make the cabinet plumb. Retighten screws. Overtightening screws will damage the cabinet backing. Slowly tighten until the head of the screw is flush with the back of the cabinet.
<b>Drawer is not flush to the face frame</b>	<i>Drawer glide is misaligned</i>	Adjust drawer guide until drawer closes flush against frame. Consult <a href="http://www.smartcabinetry.com/hardware.php">www.smartcabinetry.com/hardware.php</a> for information regarding hardware adjustment.
	<i>Cabinet is out of square</i>	Loosen screws in back and use shims to make the cabinet plumb. Retighten screws. Overtightening screws will damage the cabinet backing. Slowly tighten until the head of the screw is flush with the back of the cabinet.
<b>Cabinet shelf is sagging in the middle</b>	<i>Shelf peg is not properly inserted</i>	Adjust pegs accordingly, insert on the back side of the middle wood frame section (center mullion). Use all shelf pegs in their proper positions.
<b>Scratches, nicks, or dents</b>	<i>Damage occurred during installation</i>	Contact your installer or dealer, touch up kits are available for order through your dealer.
	<i>Damage occurred during shipping</i>	See page 74, "What if my shipment is damaged?"

Important: It is not advisable to install cabinets wider than 36 inches or deeper than 12 inches on a wall independently. If essential to ones kitchen, the installer of the kitchen must secure the cabinet to a permanent structure, i.e. interior wall.

Important: Structural modification of a wall cabinet can significantly weaken the cabinet. For this reason modifications to Smart Cabinetry are not recommended, such as cutting the back to clear wall obstructions. If an obstruction exists, we suggest you first try to use cabinet(s) that do not require modifications. If modification is required, the warranty of the cabinet is void and it is the responsibility of the installer to take appropriate steps to compensate for any loss of strength or support due to the modification.

Soffit exists: Install permanently to a soffit by running four #10 lag bolts 3" in length through the top face frame into the "2x" structure (x4, x6, x8 or larger and a minimum) directly to the overhead structure or ceiling joist.

Soffit doesn't exist: The cabinets must attach to an adjoining cabinet which is affixed to wall or permanent interior structure. If it is at the end of a cabinet run install a tall end panel (TEP) and attach to its frame establishing a "permanent" fixture supporting the cabinet permanently attached to the TEP which is permanently attached to the floor.

Failure to follow these instructions will void all warranties. The result could be the cabinet falling off the wall which becomes a liability not warranted by Smart Cabinetry.

# CLAIMS INSTRUCTIONS

All claims must be initiated through a Smart Cabinetry customer (builder, dealer, or contractor). A Smart Claims Form can be found at [smartcabinetry.com/forms.php](https://smartcabinetry.com/forms.php). Claims are valid only when proper documents and documentation are provided. Documents include Smart Claims Form, Signed Bill of Lading (BOL), and pictures. To avoid delays in processing your claim, the correct original job number must be included on your Smart Claims Form. All claims and documentation must be submitted to [orders@smartcabinetry.com](mailto:orders@smartcabinetry.com).

Freight on claims paid at 100% will be covered by Smart Cabinetry. Freight on claims paid at 50% or that are fully chargeable will be billed at the customer's expense.

For questions regarding a claim, please contact [customerservice@smartcabinetry.com](mailto:customerservice@smartcabinetry.com).

## **MISSING ITEMS CLAIM (MUST BE FILED WITHIN 7 BUSINESS DAYS OF DELIVERY):**

A missing items claim is made when item(s) are missing at the time of delivery and documented on the BOL. A copy of the signed BOL and notation of missing item(s) are to be included with the claims form.

## **FREIGHT DAMAGE CLAIM (MUST BE FILED WITHIN 7 BUSINESS DAYS OF DELIVERY):**

A freight damage claim is made when there is visible damage at the time of delivery and documented on the BOL. Pictures showing damage, a copy of the signed BOL and notation of the item(s) damaged are to be included with the claims form.

## **CONCEALED DAMAGE CLAIM (30 DAY NO HASSLE GUARANTEE):**

A concealed damage claim is made when damage is not evident at the time of delivery but noticed upon opening of the item(s) packaging. Pictures showing damage and notation of the item(s) damaged are to be included with the claims form. Claims filed within 30 days of delivery will be paid at 100%. Claims filed after 30 days could be shared "proportionately" between organizations as a 50/50 split. Smart Cabinetry reserves the right to deny any concealed damage claims filed after 30 days.

## **MANUFACTURING DEFECT CLAIM:**

A manufacturing defect claim is made when defects are in direct correlation to a defective component or manufacturing error. Pictures showing the defect and notation of the item(s) defective are to be included with the claims form. Manufacturing defects will be paid at 100% in accordance with our Limited 5 Year Warranty.

It should be expected to see differences in wood characteristics on maple/oak cabinetry. Wood characteristics that naturally occur include tiger striping, knots, or variations in wood color. Wood characteristics are not considered a manufacturing defect. For concerns with excessive variations, please submit pictures and a claims form. Smart Cabinetry reserves the right to deny any claim due to wood characteristic concerns.

# LIMITED 5 YEAR WARRANTY

Five Year Limited Warranty on cabinets, excluding special finishes. Smart LLC, d/b/a Smart Cabinetry warrants to original purchaser for a period of five years from the original date of purchase that all components of Smart Cabinetry shall be free from defects in material and workmanship under normal use. This warranty is only applicable to products used in standard North American residential applications and is not transferable.

Should defects in material or workmanship exist during the applicable warranty period in any Smart LLC product, Smart Cabinetry will elect at its discretion to either repair or replace the defective material or component free of charge. This warranty covers only parts and materials of the products supplied by Smart Cabinetry. Not covered under this warranty are counter tops, appliances, plumbing fixtures, etc. or the costs, including labor, to remove and reinstall materials and related components such as fittings, appliances, etc. This warranty shall become void if the cabinets are in any way modified, improperly installed or damaged prior to or during the installation. This limited warranty applies only in the case of the standard residential application in the United States, and is void for all other applications. Furthermore, this warranty will not apply to cabinets damaged by misuse, neglect, abuse, acts of God, exposure to extreme temperatures, the effects of normal wear and tear or exposure to moisture including, but not limited to, excessive or continued exposure to moisture as a result of leakage, improper plumbing, flooding, etc.

Hardwoods vary in color, characteristics, and may exhibit subtle changes as they age. Sunlight, smoke, household cleaners and other environmental conditions may also affect the color match over time. These variations are considered the nature of the material in relation to their environmental exposure and are not covered under this warranty.

Hardwoods will expand and contract physically when environmental changes occur in the normal setting of ones kitchen. Changes in temperature, humidity, or prolonged moisture will cause normal "movement" in hardwood products. Hairline cracks or "separation" may appear consequently becoming visible over joint areas. Painted face frames, doors and other painted products (doors) may develop joint separation and visible cracks. Visual variations such as these are considered normal and customary in our industry. Characteristics developing from the materials used constructing Smart Cabinetry relative to its environment is not covered under Smart LLC Five Year Limited Warranty.

Smart Cabinetry's Five Year Limited Warranty shall become void from the improper use of household chemicals. Alkaline, acidic and ammonia based detergents and cleaners, as well as vinegar and strong solvent based cleaners, and excess water exposure severely affect the finish of a Smart cabinet. This also includes mineral spirits, paint thinner or any other harsh cleaning chemicals including citrus and citrus based cleaners or any abrasive cleaning products.

Smart Cabinetry reserves the right to alter designs, specifications and materials, and will periodically do so, as conditions require and improvements are developed, without obligation to make similar changes to products previously manufactured. The repair(s) or replacement(s) are contingent upon the current product offerings of styles and construction options within the Smart Cabinetry product line at the time of the warranty claim. If a warranty claim is filed after a product has become obsolete, or has undergone design, specification or material changes, we reserve the right to honor the warranty in one of the following manners:

1. To replace the affected component with a new component of the same style.
2. OR any affected component to achieve a uniform appearance with a comparable product style.

If components are replaced, Smart Cabinetry cannot guarantee the finish of these replacements will exactly match the finish and appearance of the components in the residential application due to the changes that occur during hardwoods natural aging process. Imperfections are part of its inherent natural beauty. Wood varies in color and characteristics that exhibit subtle changes as it ages. For example, white-painted face frames will eventually have visible seam lines at the joint areas, and individual cabinet wood species will darken or lighten with time. Imperfections are not the result of manufacturing ones cabinets, Smart Cabinetry's Limited Five Year Warranty

will not cover differences in color, grain and natural variations including but not limited to those "character" imperfections indigenous to the species of hardwoods used by Smart Cabinetry nor does it cover possible differences in color when adding new cabinetry to old.

Smart Cabinetry does not warrant the installation of "stand alone" or independent cabinets in widths greater than thirty-six inches and depths greater than 12" inches. All cabinets regardless of design dimension or shape must be affixed to "studs", permanently fastened to interior wall, floor or ceiling joists attached to permanent structures i.e. interior partition wall or floor. **IMPORTANT:** Structural modification of a wall cabinet can significantly weaken the cabinet. For this reason modifications are not recommended, if modification is required, the warranty of the cabinet is void and it is the responsibility of the installer to take appropriate steps to compensate for any loss of strength or support due to the modification.

\*\*\* SEE INSTALLATION INSTRUCTIONS

THIS WARRANTY IS THE EXCLUSIVE WARRANTY OF SMART CABINETRY AND IS IN LIEU OF AND SMART CABINETRY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

This warranty applies only to products manufactured or supplied by Smart Cabinetry. Any interpretation herein other than written is unwarranted.

This warranty applies only to products used in residential applications within the United States and is not transferable to subsequent owners. This warranty supersedes all previous warranties from date of issuance. This Warranty constitutes the exclusive remedy against Smart Cabinetry for alleged defects in materials and workmanship.

This warranty gives you specific legal rights and you may have other rights, which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

To obtain replacement(s) under Smart Cabinetry's Five Year Limited Warranty, first contact your authorized Smart Cabinetry dealer or distributor, who will arrange for inspection of the cabinet. A dated sales receipt as proof of purchase is required to obtain benefits from this warranty.
