

## Non-Stock Lead Times

Normal Lead time on non stock Toto is 3-5 weeks

## Non-Stock Expedited Orders

Expediting is subject to availability and freight charges.

## Warranty

Warranty China that is damaged or broken in the box requires a return authorization at which time it will be determined if Williams needs the material back or not.

Warranty Faucets with mechanical issues will need repair parts, customers can contact Toto directly at 1-888-295-8134.

Warranty Faucets with finish issues will require a return authorization and a replacement faucet.

## Cancellations and Returns

Cancellations and returns are allowed on **STOCK** items only at a 25% restocking fee.

Items must be in new condition and original packaging.

No cancellations or returns on non-stock products.

## Information

For more product information including specs visit [wmsdist.com](http://wmsdist.com) and click on the product link.

## Features & Benefits

- Toto is the world leader in flushing technology. (expanded information on this follows)
- Neorest products are innovative and design oriented for the discriminating buyer.
- We stock more Toto products than any other wholesaler in Western Michigan, giving you the edge over any other retailer.
- Toto faucets are beautifully designed and made of 100% brass. Heavy in feel and sleek in design, they are high quality in a wide range of prices and design.
- Washlets are the industry standard for bidet seats. Many companies have tried to imitate the features and benefits of the Toto Washlet, but most have fallen short. They have 4 levels of features and benefits to fit most every clients needs and budget.
- Toto is dedicated to the green movement. They are constantly trying to find ways to help in the conservation of water. Dual flush and Eco flush toilets as well as low flow faucets, combined with their "green" manufacturing facility in Georgia earns Toto the reputation of a leader in LEED certified products.

# TOTO®

Over the last 25 year, TOTO's innovations have led and revolutionized the Bath and Plumbing industry...and the world!

## World "Firsts" From TOTO

1.6 GPF Toilet

3" Flush Valve

Soft Close Seat

Skirted Design &  
Modular Rough In

Tornado

Washlet

Tankless Design

EcoPower Faucets

Start with [www.totousa.com](http://www.totousa.com) ,when you get there click on TRADE at the bottom of the page, from there click on TOTO INNOVATION at the bottom of that page, then click on Flushing Systems and look at the four listed (Tornado, Gmax, etc....) by clicking on "more details" in the picture. This can be printed as needed. After the Flushing systems have been reviewed, click on TOTO INNOVATIONS and click on SANAGLOSS, go to "more details". This really explains well what SANAGLOSS is all about and has a great picture that will help the customer understand it.

The next site that should be viewed is [www.totoneorest.com](http://www.totoneorest.com) , we have four of them in stock and they are a great piece but to sell them you need to understand it. When on the site to the site click on the toilet, look at product details by clicking on each feature on the toilet. Also click on the remote control. Click on each button on the remote including the buttons located on the top edge of the remote. This will explain the features of the remote.

One side note about the Flushing systems; the Gmax is the same as the Emax with the only difference being that the Gmax flushes 1.6GPF and the Emax Flushes 1.28GPF.

# TOTO®

## Tornado Flush

It's a scientific fact—gravity plus significant centrifugal force will spin most anything away efficiently. Like a cyclone in nature, the Tornado flushing system harnesses the power of water and gravity to create a more powerful 1.28 GPF that maximizes cleaning action. Tornado features:

- Two nozzles (instead of rim holes) use water more efficiently for a better rim and bowl wash and result in less trapped dirt and bacteria and less cleaning.
- The dual-nozzle water propulsion system allows more water to be directed to the siphon for a more powerful flush.

## E-Max® Flushing System

Unlike pressure assist toilets, which can be noisy and are made with more complicated moving parts, E-Max is a simple and quiet solution for effectively flushing 1.28 gallons. Utilizing the same proven engineering as our legendary 1.6 GPF G-Max flushing system, the 1.28 GPF E-Max reinforces TOTO's performance reputation while offering an additional water savings of 20%. E-Max features:

- Wide 3" flush valve provides a quick, consistent and powerful flush.
- Large 2-1/8" trapway is glazed to optimize waste passage.
- Pilot-operated fill valve ensures quiet operation and a clean shutoff at any water pressure.
- Extra-large siphon jet works in conjunction with the large glazed trapway; siphon jet pulls away waste with incredible force.

## Dual-Max® Flushing System

The TOTO Dual-Max flushing system is the leading choice for dual flush performance and conservation because it doesn't sacrifice performance for conservation like many other dual-flush solutions in the market. Our goal was to optimize water conservation and set a high bar in flushing performance. Dual-Max features:

- An integrated control that allows you to select the appropriate amount of water usage from 0.9 GPF to 1.6 GPF.
- TOTO Aquia® toilets with Dual-Max flushing feature a clean, skirted bowl design, offering an unmatched convergence of style and efficiency

## G-Max® Flushing System

G-Max's extra-wide 3" flush valve and wide 2-1/8" glazed trapway offer increased flow, drawing water into the bowl more quickly, and then away more forcefully. And with G-Max's powerful siphon jet, the system makes sure what goes down stays down. G-Max is the industry benchmark for flushing performance with features like:

- A larger 2-1/8" glazed trapway offers increased flow, drawing water into the bowl more quickly and then away more forcefully to prevent clogging.
- A huge 3" flush valve creates a quicker, quieter, more forceful flush.
- An extra large siphon jet generates unmatched power for one-flush superiority to make sure what goes down stays down.

# TOTO®

## Color Codes: Model Suffix

01 = Cotton (Same as White)  
03 = Bone (Same as Almond)

12 = Sedona Beige (Same as Biscuit)  
51 = Ebony (Same as Black)

### SanaGloss®

TOTO's patented, super-smooth SanaGloss glaze prevents debris, mold and bacteria from sticking to porous, ceramic surfaces. SanaGloss keeps your TOTO chinaware cleaner, longer, which means fewer chemicals in the environment and less water used for cleaning.

### Skirted Design

Indicates toilets featuring TOTO's concealed trapway design

### Universal Design

Toilets features a seat at 16-1/8" or above from the floor. Pedestal lavatories is at a height of 34" or above from the floor.

### ADA

Product compliance with ADA accessibility guidelines.

### EcoPower®

Engineered to require no electricity or routine disposable battery replacement, EcoPower products are the perfect marriage of hands-free operation, low maintenance and sophisticated design. TOTO® EcoPower sensor faucets and flush valves are a shining example of totology.

### Shape Memory Alloy Thermostatic Mixing Valve

TOTO's exclusive Shape Memory Alloy (SMA) Thermostatic Mixing Valve, now available in select TOTO shower systems, features a nickel and titanium alloy coil that responds to temperature changes more quickly than traditional wax-type thermostatic mixing valves. The result is a more comfortable shower with benefits like:

- Outstanding anti-scald protection
- More power to quickly achieve and maintain your ideal temperature setting
- Durability for a lifetime of perfect performance (unlike conventional wax thermostatic mixing valves, the material and design of SMA prevents degradation in performance over time)

WaterSense a partnership program of the U.S. Environmental Protection Agency (EPA), makes it easy for Americans to save water and protect the environment by identifying high efficiency products that perform well.
