TOPS FOR ROCKVILLE SERIES

- If selecting an Essence Quartz top, it is recommended to purchase the shallow bowl Item# WCRECT18X11WHT, which is 1" shallower than the normal Essence bowl. Otherwise, the drawer has issues opening and closing due to the drawers scraping the bottom of the bowl.
- If selecting an Urbana Cultured Marble top, there are no issues with either the rectangle or oval bowl.

Photos A & B demonstrates top drawer scraping bottom of bowl. Photos C & D demonstrate the overflow channel impeding the top drawer from fully closing. Using one of the solutions above will prevent these issues.
