NEW PRODUCTS & UPDATES

THE DIAMOND SPRING 2024 LINE-UP IS HERE!

Discover Diamond's newest finish - Retreat paint. Plus new products, product expansions and tools created to help you design and sell.

Don't miss the Diamond Spring 2024 Design Guide where you can see work from your fellow designer, Kim Follis. You'll enjoy the way she squeezed storage into every square inch of her kitchen design, even into the smallest of spaces at the end of the island.

Like Kim, you could be featured in a future Diamond Design Guide as well as on MasterBrand's website, social media and beyond. We want to promote you by spotlighting your design talent. Submission of your project photography (and video) is simple via the Diamond Brand Portal or scan the QR code below.

Share your Diamond designs with us by scanning the QR code.

We can't wait to see your Diamond designs!

Framed Semi-Custom Cabinetry

VIBE™ SERIES
Framed Value Semi-Custom Cabinetry

D Distinction™ Series

NOW OFFERS GREATER CUSTOM DIMENSION CABINET BOX MODIFICATIONS – AND **AT NO CHARGE.**

WHAT'S NEW:

- Custom height (CH) box modifications
- Custom width (CW) box modifications

CUSTOM HEIGHT BOX MODIFICATIONS:

Reduces cabinet height in ¼" increments. Select the cabinet with the next largest size available and specify the desired height.

CUSTOM WIDTH BOX MODIFICATIONS:

Reduces cabinet width in ¼" increments. Minimum width is generally determined by the smallest available width in the same cabinet configuration. Select the cabinet with the next largest size available and specify the desired width.

OTHER DETAILS:

- The number of doors, drawer fronts, drawers, and shelves does not change when the cabinet height is reduced.
- Minimum height and width varies by cabinet type.
- Not available on all door styles.
- For other modification details and compatibility, see price and specification guide.

REMINDER:

Over half of Distinction Series cabinets offer Increased Depth (ID) and Reduced Depth (RD) modifications as well.

? WHY YOU'LL CARE:

These new modifications empower you to deliver a more custom design to your client without an upcharge, making you, their hero!

NEW FINISH

RETREAT PAINT

Interior colors are becoming boldly softer - allowing a more colorful neutral landscape where dashes of contrasting colors can be added and easily changed. Retreat - a soft, medium gray color with blue green undertones - delivers an understated but still interesting aesthetic.

Vibe™ Series

Painted Hardwood

Maple and MDF

MORE FARRAH DOOR STYLE OPTIONS

The Farrah FO rail size is transitioning to 2 ¼" wide which allows for compatibility with the DPSRR modification. The current flat center panel will remain standard.

- Distinction™ Series

Optional Door Profile

MURPHY 10"+ DRAWER FRONTS

The Murphy 10"+ Drawer Fronts are transitioning to a standard raised center panel to align with all other solid raised panel doors styles across the Diamond portfolio.

- Distinction™ Series

Optional Door Front Profile

BOYNTON FO AND LIVINGSTON PO DOOR RAILS

The rail on Boynton FO and Livingston PO doors is transitioning from 2 ¾" to 2 ½".

This rail size change impacts:

- Distinction™ Series
- Vibe™ Series

LEETON DRAWER FRONT RAILS

The rails on Leeton drawer fronts are transitioning from 2 1/8" wide to 2 1/2" wide.

This rail size change impacts:

- Distinction™ Series 6 ¼" and 6 ¾" drawer heights

Drawer Front Profile

BREMAN DOOR AND DRAWER FRONTS

The Breman Door Style remains but is changing to a standard flat panel. A reversed raised panel can be achieved with Breman by using the DPSRR modification.

- Distinction™ Series

? WHY YOU'LL CARE:

These style updates allow for greater design flexibility.

Diamond's PureStyle™ offering - the look of paint with greater durability and cleanability - is growing.

BOYNTON FO AND LIVINGSTON PO STYLE EXPAND IN PURESTYLE.

The popular, neo-Shaker style of Boynton (Full Overlay) and Livingston (Partial Overlay) is now available in PureStyle.

- 5-piece drawer front standard

Available finishes:

Cloud
Icy Avalanche
Maritime
Moonstone
Steam
White

V Vibe™ Series

REACH NEW HEIGHTS WITH THE NEW 66" HIGH DOUBLE OVEN MODIFICATION

Through evaluation of special-order requests and studying design trends, the launch of a new modification that allows for a 66" high oven cabinet just made good sense! This modification allows for the 66" high oven cabinet to be stacked with additional cabinets to achieve taller height requirements such as 108" and 120".

- Double Oven (OCD*66) and Double Oven with Deep Drawer (OCD*66DD)
- Standard 3" rail and Narrow Rail configurations will be available.

- Distinction™ Series

? WHY YOU'LL CARE:

Consumer demand for wood hoods is strong. Fulfill your client's vision with this classic design.

Straight Artisan Wood Hood in Maple Cloud Paint

TOP OFF THE DESIGN WITH THIS CLASSIC WOOD HOOD

Offered exclusively in the Edge Series, the Artisan Straight Wood Hood is now available in the Trademark Series. As wood hoods continue to grow in popularity, this striking wood hood creates a focal point for the kitchen.

- Artisan Straight Wood Hood (WHAS**)
- Compatible with all Diamond blowers
- Trimmable up to 12"

- Distinction™ Series
- Vibe™ Series

TAKE IT HIGHER WITH 31.5" MICROWAVE AND OVEN CABINET DESIGNS

Used to stack with microwave and oven cabinets, these 31.5" wide cabinets allow you to achieve taller overall cabinet heights. Existing in Distinction Series, these options are now available in Vibe Series.

CONSTRUCTION CHANGES

CLEAN UP DESIGN LINES WITH FRAMED CONSTRUCTION.

With the goal of delivering a cleaner aesthetic, construction changes are being implemented to the following items:

- Wall organizers
- Wall wine cubby
- Wall spice drawer
- Base wine cubby
- Base spice drawer
- These cabinets now feature framed 1/2" plywood construction with matching finished interiors/exteriors.
- The nomenclature used to identify these SKUs has evolved. See the price and spec guide for details.

GLOBAL OPTIONS

This section contains information regarding the global options you will choose that will apply to your entire order: species/material characteristics, door options, and finish options.

A

GLOBAL OPTIONS

CHARACTERISTICS OF LAMINATE

The surfaces of doors, drawer fronts, and overlay fillers feature laminate materials with an integrated top coat that provides superior beauty, durability, and performance. The core panel material is made of MDF to ensure a consistent and stable product.

A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

CHARACTERISTICS OF PURESTYLE™ LAMINATE

PureStyle™ is an innovative laminate that is applied to a wood or engineered wood substrate. Characteristics include crisp styling, consistent coloration, and abrasion-resistant durability.

These doors offer the durability of a laminate and the beauty of paint while bringing peace of mind to those who care about creating a better environment — both inside and outside of their homes.

PureStyle™ doors can be distinguished from painted cabinets by their picture perfect distribution of satin smooth color on a sleek surface with optimum durability. Trim items will feature a matching painted finish except where noted in product specifications.

A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

In the Species Availability charts throughout the book, refer to Laminate column for PureStyle™ availability.

CHARACTERISTICS OF WOOD TYPES

No matter which species you choose for your new kitchen or bath cabinetry, please keep in mind that no two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat or moisture. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes and wormholes. These markings make the wood unique and contribute to its enduring beauty.

Cherry - features a uniform grain pattern that may reveal pin knots, curled graining and occasional black mineral streaks. With predominantly red undertones, expect color variation from creamy white to deep brown, especially in natural and lighter finishes. Cherry darkens with age and the darkening process is enhanced by exposure to natural light.

Maple - is a tight-grained, uniform hardwood that may include fine brown lines, wavy or curled markings, bird pecks and mineral streaks. It is predominately white to creamy-white in color with occasional reddish-brown tones.

Oak - is an open-grained hardwood that may contain knots, wormholes and highly varying grain patterns, adding to the unique characteristics of the wood. Oak's coloration ranges from white to pink and reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits.

Painted Hardwood - finishes combine hardwoods and engineered materials including solid-wood, engineered materials — such as medium density fiberboard (MDF) and high density fiberboard (HDF) — and similar composite materials providing a smoother surface for painting and superior stability, consistency, and durability.

In keeping with our practice of continuous product improvement and/or to maximize efficiencies, Diamond Vibe Cabinetry may adjust specifications in design and materials as it deems necessary. Where differing materials are utilized, they will be of similar or better quality in keeping with Diamond Vibe Cabinetry's commitment to quality.

DOOR STYLE SPECIFICATIONS

Cherry

- When Cherry door styles are ordered, it is recommended to apply a finished end option or a veneer end panel for exposed ends due to the natural aging of Cherry.

All Door Styles

- All doors and drawer fronts are 3/4" thick unless otherwise noted.

Door and Drawer Front Side Profiles

- Veneer and MDF components are shown with gray shading on side profiles. Solid-wood components do not have shading.

Wood Grain

- See reference images for wood grain direction on all door styles.

OVERLAY SPECIFICATIONS

DOOR STYLES

Full Overlay

The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

Modified Full Overlay

Wall and Tall Cabinets: The door and drawer fronts overlay the frame exposing 1/4" on the bottom rail and right and left stile. One full inch is exposed on the top rail of wall and tall cabinets. Typical units with a center stile expose 1/2" of that stile.

Base Cabinets: The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

*34 1/2" high application shown. On 32" high Full Overlay three drawer applications (drawer bases and sink bases with drawers), the reveal above the bottom drawer front is 1/2".

- One double door center stile cabinet has the same reveal as two single door cabinets.

OVERLAY SPECIFICATIONS

Partial Overlay

<p>Partial Overlay</p>	<p>The door and drawer fronts overlay the face frame 1/2", exposing 1" of the frame both on the stile and rail members. Typical wall and base cabinets with a center stile expose 2" of that stile.</p>	 <p>1" reveal at sides, top, and bottom of front frame</p>
<p>Exceptions on Face Frame Reveals</p>	<ul style="list-style-type: none"> • Some oven units have 3" stiles and 9" intermediate rails (designed for universal flexibility of cut-out options) that create various reveals. • Blind corner wall and base cabinets expose different center stile reveals. Diagonal corners also vary. • Please see the dimensional charts for oven units and blind bases located in those sections. 	

*On Partial Overlay 2DB__ (Two Drawer Bases), reveal above the bottom drawer front is 2".

DIAMOND VIBE CABINETRY'S 12-STEP FINISHING PROCESS

- 1. Wood Selection** – The selection of the finest woods is the essential first step of the 12-step finishing process.
- 2. Sanded to Perfection** – Our sanding utilizes a fine grit paper, both with and against the wood grain. This process is completed on a vacuum table, allowing for a wood surface that is free of dust particles.
- 3. Achieving Natural Wood Tone** – Toner is applied to selected finishes, enhancing the naturalistic wood appearance.
- 4. Stain Application** – A hand-sprayed deep saturating stain is evenly applied to all surfaces for even coverage on all profiles. On multi-step stains and glaze finishes, some non-facing surfaces (such as backs of doors, backs of panels, and matching veneer interiors) may not receive all steps noted. The resulting finish will be complementary and similar in color and have the same catalyzed top coat and cure, but may not result in the same color depth as facing surfaces.
- 5. Removal of Excess Stain** – The wood is hand-wiped to remove excess stain, emphasizing the cabinet's natural wood grain.
- 6. Catalyzed Sealer** – A tough, clear, catalyzed sealer is hand-sprayed on to protect the grain from moisture.
- 7. Drying Process** – For added durability, the sealed wood is oven cured to lock in the beauty of wood.
- 8. Hand-Sanded** – To achieve an ultra-smooth finish, we hand-sand the material one last time.
- 9. Dust Removal** – The resulting loose dust particles are removed from the surface of the wood.
- 10. Catalyzed Top Coat** – A premium quality catalyzed top coat is applied to protect the wood from environmental elements.
- 11. Final Top Coat Cure** – The top coat is cured for a strong, beautiful finish.
- 12. Final Inspection** – This last inspection is very thorough, ensuring quality and beauty. Our gift to you is that every cabinet is crafted with care.

CHARACTERISTICS OF GLAZING/PAINT

Penned Glazes

A professional layer of glaze can add another layer of beauty to your cabinets. Our hand-detailed penned glaze application adds depth and dimension to your cabinet's appearance by highlighting the profile of your door style choice.

- Hand-detailed penned glazing will leave a consistent, "penned" appearance around the door profile, and will not change the overall finish or paint base color.
- You should expect the result to yield a subtle to dramatic look based on the complexity of a cabinet door's design.
- Printed materials and online, electronic presentations can only do so much. It's important to both see and touch actual finished samples to ensure your satisfaction.

Characteristics of Paint

Paint may develop hairline cracks in the finish, most notable around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish.

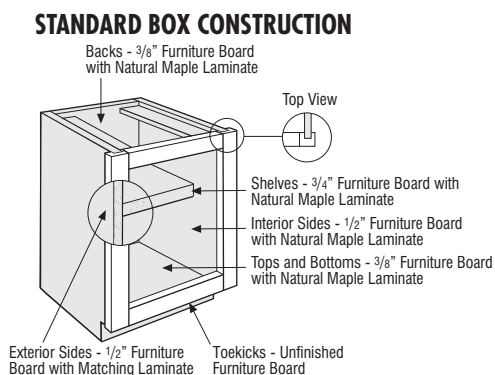

NOTES

NOTES

CONSTRUCTION FEATURES

	STANDARD CONSTRUCTION	PLYWOOD ENDS*	ALL-PLYWOOD CONSTRUCTION*
Doors & Drawer Fronts	See Door Style section for door and drawer front configuration and construction details.		
Face Frames	3/4" solid hardwood.

TOEKICK MODIFICATIONS (cont'd)

See page 2 for modification compatibility.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS	PRICING
Flush Toekick Arch (FTKAV)	Most base, tall, and vanity cabinets, and wall cabinets with ADDTK	Creates an arch flush toe space. Valance replaces standard toekick creating a full open area beneath cabinet floor. When FTKAV is ordered with the Peninsula modification, both sides will receive an arch flush toekick. Not available on 9" or 12" wide cabinets.	\$160 list
Flush Toekick Furniture (FTKFV)	Most base, tall, and vanity cabinets, and wall cabinets with ADDTK	Creates a furniture flush toe space. Valance replaces standard toekick creating a full open area beneath cabinet floor. When FTKFV is ordered with the Peninsula modification, both sides will receive a furniture flush toekick. Not available on 9" or 12" wide cabinets.	\$160 list
Void Toekick (VTK)	Most base, tall, and vanity cabinets	Removes the toekick. Only available when the cabinet has a standard toekick (not available when flush toekick is standard or when cabinet has a separate pedestal base). When VTK is specified on cabinets to be used with a countertop, cabinets must also be supported from the floor, not just attached to the wall. Failure to properly install cabinets in this situation will void the warranty.	\$93 list

- All textured glass panels will be drop shipped separately from the cabinet order.
- Glass installation clips will ship with the doors and/or cabinets.
- The use of glass for base cabinet applications or for placement near interior or exterior doors is not recommended.

Mullion Door To Fit:	PRICE
	List per Door
15" High Wall Cabinet	391
18" High Wall Cabinet	391
24" High Wall Cabinet	391
30" High Wall Cabinet	391
33" High Wall Cabinet	423
36" High Wall Cabinet	423
39" High Wall Cabinet	423
42" High Wall Cabinet	423

To price Mullion Doors attached to a cabinet, add the list price per door to the wall cabinet price (MIP modification upcharge will be applied to the cabinet price if matching interior is desired).

For a door only (not specified on a cabinet), add the list price for a door only to the Mullion door list price. See Doors and Drawer Fronts on page 153 for details.

- For Mullion Door availability, please see modification grid in cabinet sections.

TEXTURED GLASS PANELS

Bevel Clear Frost Reeded Seeded

- Cut-for-glass and mullion doors must be ordered separately. See pages 15-16.
- For glass shelf kits, see page 141.
- When textured glass is ordered for use in wall top hinge cabinets (WTH), glass design will be turned horizontally and may not match desired pattern.
- Door frame may reduce amount of glass shown.
- All textured glass panels will be drop shipped separately from the cabinet order.
- Glass installation clips will ship with the doors and/or cabinets.
- The use of glass for base cabinet applications or for placement near interior or exterior doors is not recommended.
- No changes or cancellations will be accepted after 24 hours from acknowledgment of order.

96"*	92 5/16"	92 3/4"	93 9/32"	93 29/32"	94 5/8"

*Separate pedestal base included with cabinet to be installed after cabinet is in an upright position.

DESIGN CHECKLIST

CONSTRUCTION OPTIONS

Consider exposed end options:

- Modify exposed cabinet ends to FPEB.
- Apply 1/4" skin to hide 1/4" reveal. This will allow the ends to age uniformly with the rest of the kitchen and will make it flush.
- Apply decorative door kit (BEDSD, WED, TED). This kit includes 1/4" skin, decorative doors, and screws for field installation.

WOOD AND FINISH CHARACTERISTICS

Review specific details with the customer:

- Mineral Streaks, Birdseye Dots, Grain Variations.
- Color Variations/Darkening.
- Finish Variations (Glazes are "consistently inconsistent"), hairline cracks may develop at frame joints on painted frame.
- Underside of cabinets are natural maple laminate. Use light rail or cabinet panel edge and skin to hide, especially when designing with peninsula wall cabinets.

LOGIX®

Review storage and usage needs with Customer. See page 30 for complete chart.

- Cooking Solutions:
 - Wall Spice Rack Cabinet
- Storage Solutions:
 - SuperCabinet™
 - Pegged Dish Organizer
 - Wall Message Center
- Clean-up Center:
 - Base Wastebasket

CLEARANCES

- Add fillers between end cabinets and walls on full overlay door styles.
- Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.

Maintain a minimum clearance of 3" by pulling blind corners as follows:

- Full Overlay: 1 1/4", Standard Overlay 1/2". (More is needed in certain situations such as when adjacent to an appliance or when using oversized pulls or knobs.)
- Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, etc). Doors on these cabinets must open fully for accessories to be functional.
- Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Qualify customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

FILLERS

- Place fillers toward end of run where least conspicuous if needed.
- Attach overlay fillers on top of the base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.
- Add a filler at least 6" wide to accommodate a decorative onlay when the filler is used as valance.

VARYING HEIGHTS AND DEPTHS

- Also increase the depth of a wall cabinet run when you increase the height (so moulding on adjacent cabinet will kill into the side of the taller cabinet).
- Skin the sides of tall cabinets to 1) hide the seam between the toekick pedestal and the cabinet, 2) keep adjacent base and wall cabinets out from reveal of tall cabinet.
- Add increased depth on tall end panels for a built-in look for deep refrigerators.
- Account for the additional support needed for wall cabinets with a depth of 18" or greater. This can be achieved by installing a soffit or end panels.

MATCHING INTERIOR CABINETS/GLASS OPTIONS

- Verify cut-for-glass or mullion door option is available on desired cabinet size. (See pages 15-16 for available cut-for-glass/mullion door sizes.)
- Verify glass insert option is available for desired cut-for-glass door size chosen.
- Verify matching interior option has been selected for all open or glass cabinets.
- Use light rail and skin to hide color variation between bottom of cabinets with and without matching interior.
- Verify mullion door lite grid matches customer expectations.

MOULDINGS

- Verify correct amount of crown moulding has been ordered.
- Order toekick caps.
- Order extra scribe.

ISLANDS AND PENINSULAS

- Consider standard height bars are 34 1/2" tall and require 19" knee space. Raised bars are 42" tall.
- Consider base peninsula cabinets (P) are 24 1/4" deep and require 12" of knee space. Use back panels/doors to flush non-P cabinets with P cabinets.
- Use outside corner moulding if a skin is exposed on the back of the island.

APPLIANCES

- Note for all consumers, appliances are not included with any cabinetry product.
- Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- Verify refrigerator door has enough clearance to open beyond 90 degrees so refrigerator drawers can be utilized. Refer to appliance manufacturer's specs.
- Add TF696FH, as it may be required to frame around built-in microwave ovens and other built-in items. Refer to appliance manufacturer's specs.
- Order appliance panels.

SPECIAL CONSIDERATIONS

- Consider V-groove skins and/or decorative doors on exposed cabinet sides in glazed kitchen.

MISCELLANEOUS

- Order full size touch-up kit (mini touch-up kit included with standard sink base).

kitchen planning guidelines

DOOR/ENTRY

- Door opening should be at least 32" wide, requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- Entry door should not interfere with safe appliance operation or appliance doors.

DISTANCE BETWEEN WORK CENTERS

- With three work centers, the total distance traveled should not be more than 26' with no single leg of the triangle less than 4' or more than 9'.
- With more than three work centers, each additional travel distance to another work center should be no less than 4' or more than 9'. Each leg is measured from the center-front of the appliance/sink. No work triangle leg should intersect an island/peninsula by more than 12".

SEPARATING WORK CENTERS

- A tall obstacle should not separate two primary work centers. A properly recessed tall corner unit is acceptable.

WORK TRIANGLE TRAFFIC

- Major traffic patterns should not cross through the basic work triangle.

WORK AISLE

- The work aisle should be at least 42" for one cook and at least 48" for multiple cooks.

WALKWAY

- The walkway width should be at least 36".

TRAFFIC CLEARANCE AT SEATING

- Allow 32" of clearance from the table to wall/obstacle if no traffic passes behind a seated diner. If traffic passes behind the diner, allow at least 36" to edge past or 44" to walk past.

SEATING CLEARANCE

- 30" high tables/counters should allow a 24" wide by 18" deep space for each seated diner and at least 18" knee space.
- 36" high counters should allow a 24" wide by 15" deep space for each seated diner and at least 15" kneespace.
- 42" high counters should allow a 24" wide by 12" deep space for each seated diner and at least 12" kneespace.

CLEAN-UP/PREP SINK PLACEMENT

- With only one sink, locate it adjacent to or across from the cooking surface and refrigerator.

CLEAN-UP/PREP SINK LANDING AREA

- Include at least a 24" wide landing space on one side of the sink and 18" on the other.
- If all the countertop at the sink is not the same height, plan a 24" landing space on one side of the sink and 3" of countertop frontage on the other, both at the same height of the sink.

PREPARATION/WORK AREA

- Include a section of countertop at least 36" wide x 24" deep next to the sink for a work area.

DISHWASHER PLACEMENT

- Nearest edge of dishwasher should be within 36" of nearest edge of sink. Provide at least 21" of standing space between the edge of the dishwasher and countertop frontage/appliances/cabinets which are placed at a right angle to the dishwasher.

WASTE RECEPTACLES

- Include at least 2 waste receptacles, one near the sink and the other nearby for recycling.

AUXILIARY SINK

- Provide at least 3" of countertop frontage on one side of the auxiliary sink and 18" on the other side, both at the same height as the sink.

REFRIGERATOR LANDING AREA

- Include at least 15" of landing area on the handle side of the refrigerator, 15" on either side of a side-by-side refrigerator, 15" of landing space which is no more than 48" across from the front of the refrigerator, and 15" above or adjacent to any under-counter style refrigerator.

COOKING SURFACE LANDING AREA

- Include a minimum of 12" of landing area on one side of the cooking surface and 15" on the other.
- If cooking surface is at a different countertop height than the rest of the kitchen, then the 12" and 15" landing areas must be the same height as the cooking surface.
- For safety reasons, in an island or peninsula situation, the countertop should extend a minimum of 9" behind the cooking surface if the counter height is the same height as the cooking surface.

COOKING SURFACE CLEARANCE

- Allow 24" between the cooking surface and a protected noncombustible surface above it.
- At least 30" of clearance is required between the cooking surface and an unprotected/combustible surface above it.
- If a microwave/hood combination is used, then the manufacturer's specifications should be followed.

COOKING SURFACE VENTILATION

- A correctly sized, ducted ventilation system is recommended for all cooking surface appliances. The recommended minimum is 150 CFM.
- Code requires that the manufacturer's specifications be followed. Minimum exhaust rate for a ducted hood is 100 CFM and must be ducted to the outside.
- Make-up air may need to be provided. Refer to local codes.

COOKING SURFACE SAFETY

- Do not locate cooking surface under an operable window.
- Window treatments above cooking surface should not use flammable materials.
- Place a fire extinguisher near the kitchen exit away from cooking equipment.

MICROWAVE OVEN PLACEMENT

- The ideal location for the bottom of the microwave is 3" below the principle user's shoulder, but no more than 54" above the floor.

MICROWAVE LANDING AREA

- Provide at least 15" above, below, or adjacent to the handle side of a microwave oven.

OVEN LANDING AREA

- Include at least 15" next to or above the oven.
- A 15" landing area that is not more than 48" away is also acceptable as long as the oven does not open into a walkway.

COMBINING LANDING AREAS

- If two landing areas are adjacent to one another, determine a new minimum for the two by taking the longer of the two and adding 12".

continued

kitchen planning guidelines (continued)

COUNTERTOP SPACE

- A total of 158" of countertop frontage, 24" deep, with at least 15" clearance above is needed to accommodate all landing, preparation, work, and storage areas.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

STORAGE

- The recommended total shelf/drawer frontage for a small kitchen (less than 150 square feet) is 1400", for a medium kitchen (151 to 350 square feet) is 1700", and for a large kitchen (greater than 350 square feet) is 2000".

Sizes:	S	M	L
Wall	300"	360"	360"
Base	520"	615"	660"
Drawer	360"	400"	525"
Pantry	180"	230"	310"
Misc.	40"	95"	145"

- The totals for wall, base, drawer, and pantry shelf/drawer frontage can be adjusted upward or downward as long as the recommended total stays the same.

STORAGE AT CLEAN-UP/PREP SINK

- The recommended total for a small kitchen is 400", a medium kitchen is 480", a large kitchen is 560", and should be located within 72" of the centerline of the main clean-up/prep sink.

CORNER CABINET STORAGE

- At least one corner cabinet should include a functional storage device.

ELECTRICAL RECEPTACLES

- GFCI (Ground-Fault-Circuit-Interrupter) protection is required on all receptacles servicing countertop surfaces within the kitchen.

LIGHTING

- Every work surface should be well illuminated. At least one wall switch-controlled light must be placed at the entrance.
- Window/skylight area, equal to at least 8% of the total square footage of the kitchen, or a total living space which includes a kitchen, is required.

bathroom planning guidelines

DOOR/ENTRY

- Doorway opening should be at least 32", requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- The door area should include clear floor space for maneuvering which varies according to the type of door and the direction of the approach.

CEILING HEIGHT

- Bathroom floor to ceiling minimum height is 80". A shower or tub with a shower head shall have a minimum floor to ceiling height of 80" above a minimum area 30" x 30" at the shower head.

CLEAR SPACE

- Plan a clear space of 30" from the front edge of all fixtures to any opposite bath fixture, wall, or obstacle.
- A minimum space of at least 21" is required in front of a lavatory, toilet, bidet, and tub, with a 24" minimum space in front of a shower entry.

SINGLE LAVATORY PLACEMENT

- The distance from the centerline of the lavatory to the sidewall/tall obstacle should be at least 20".
- The minimum distance required is 15". The minimum distance required between a wall and the edge of a lavatory is 4".

DOUBLE LAVATORY PLACEMENT

- The distance between the centerlines of two lavatories should be at least 36".
- The minimum distance required is 30".
- The minimum distance required between the edges of two lavatories is 4".

LAVATORY/VANITY HEIGHT

- The height for a lavatory varies from 32" to 43" to fit the user.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

SHOWER SIZE

- The interior shower size should be at least 36" x 36". The minimum interior shower size required is 30" x 30".

STORAGE

- Provide adequate, accessible storage for toiletries, bath linens, grooming and general bathroom supplies.
- Storage of frequently used items should be 15" to 48" above floor.

ELECTRICAL RECEPTACLES

- All GFCI receptacles should be located at electrical appliance points of use.

Load bearing floors and shelves can support 15 lbs. per square foot. Warranty does not cover overloading beyond this point.

*ADDTK available with compatible toekick modifications.

When varying heights, make sure to also vary depths to allow moulding to end into adjacent side of cabinet. Vary depths at least 3" when varying heights.

Use FPEB modification or apply an end panel skin to create a flush end on the side of a wall cabinet if installed at the end of a run for ease of moulding installation.

FPEB modification is recommended for non-stacking applications. Use a 1/4" skin for stacking applications.

Wall Corner Cabinets

- Wall corner cabinets may be installed flush to the wall (left) or pulled 3" away from wall (right) to accommodate odd dimensions in a kitchen design. In either case, the adjoining run of 12" wall cabinets plus a 3" filler will butt against the solid-wood panel.
- When a cabinet is "pulled" it will use proportionally more wall space, for example, a 30" wide WC pulled 2" will use 32" of space.
- The L or R in the cabinet's nomenclature indicates the location of cabinet void.
- Blind side of wall corner cabinets cannot be installed next to a range hood or microwave shelf unit due to door interference.

NOTE: All outside stiles are 1 1/2" wide

WALL BOX COLUMN PULL-OUT, PLAIN

WBCPO330	772	772	772	772	772	772	772	772	772	772	772
WBCPO630	982	982	982	982	982	982	982	982	982	982	982

- Recommend installation between two cabinets. Can be installed on the end of a run or adjacent to an appliance with a 3/4" thick end panel.
- Install unit before removing shipping brace.
- All styles feature a natural finish full extension wood pull-out with adjustable shelves and chrome rail sides.
- In order to allow proper clearance for opening and closing, allow an additional 1/8" space between adjacent cabinet face frames. The 3" wide pull-outs require 3 1/8" space and the 6" wide pull-outs require 6 1/8" space. Spacers are included with the pull-outs to allow for proper installation.
- Not compatible with face mount moulding.
- For full access from both sides of unit, do not install against a wall or next to deeper appliances and cabinets.
- Soft-close guide not featured.

MODIFICATIONS

No modifications available for these products.

- Includes magnetic whiteboard on back of door, key hooks, pencil holder, and fixed plexi-glass fronted shelves.
- WMC1230, WMC1233, and WMC1236 have 2 fixed shelves. WMC1239 and WMC1242 have 3 fixed shelves.
- Not recommended for use next to a Peninsula cabinet due to the additional 1/4" cabinet depth.
- Door will open 90° without decorative hardware.
- Cabinet should be hinged on wall side.
- For proper installation, adjacent cabinet must have FPEB or 1/4" skin applied.
- Overlay fillers can be used on side of cabinet to add a decorative touch.

----------------	------	------	------	------	------	------	------	------	------	------	------

- Nomenclature represents left to right order of interior components.
Example: BSC30PR = Base SuperCabinet™ 30" Pull-out Roll-out.
- Cabinets utilize 170° hinge. For sufficient pull-out clearance, 12" of adjacent space is required for door to open 170° when installed near a wall or corner.
- Both doors have chrome and wood three-tiered racks.
- Door rack width is 9 3/8".
- Door rack depth is 3".
- Integrated soft-close hinge not included. Premium door mechanism installed.

Base Corner Cabinets

- BCs use the wall space the nomenclature implies.
- Remember to use 3" filler on adjoining cabinets.
- The adjoining run of cabinets will cover the void.
- The L or R in the cabinet nomenclature indicates the location of the void to ensure clearance.
- It is not recommended to place BC cabinets next to appliances where any face component is deeper than 27".

Model	A Recommended Space	B Max. Pull*	C Max. Space	D Face Frame Opening	E* Full Overlay		E* Partial Overlay		F Actual Cabinet	Full Overlay Door Width	Partial Overlay Door Width
					At Min.**	At Max.	At Min.**	At Max.			
BC36	36"	6"	42"	7 1/2"	1 3/4"	7 3/4"	2 1/2"	8 1/2"	27"	10"	8 1/2"
BC39	39"	4 1/2"	43 1/2"	9"	3 1/4"	7 3/4"	4"	8 1/2"	30"	11 1/2"	10"
BC42	42"	6"	48"	13 1/2"	1 3/4"	7 3/4"	2 1/2"	8 1/2"	39"	16"	14 1/2"
BC45	45"	4 1/2"	49 1/2"	15"	3 1/4"	7 3/4"	4"	8 1/2"	42"	17 1/2"	16"

- Recommend installation between two cabinets. If installed on the end of a run or adjacent to an appliance, must use a 3/4" thick end panel.
- Install unit before removing shipping brace and attaching filler.
- Includes unattached profiled full overlay filler on the Overlay SKUs.
- Certain door style overlays will be painted hardwood. See Door Style section for exceptions.
- Decorative hardware required on base units.
- Toekick not included; must be built up in the field.
- All styles feature a natural finish soft-close wood pull-out with adjustable shelves and chrome rail sides.
- In order to allow proper clearance for opening and closing, allow an additional 1/8" space between adjacent cabinet face frames. The 3" wide pull-outs require 3 1/8" space and the 6" wide pull-outs require 6 1/8" space. Spacers are included with the pull-outs to allow for proper installation.
- For full access from both sides of unit, do not install against a wall or next to deeper appliances and cabinets.

MODIFICATIONS

No modifications available for these products.

Universal Access Cabinets are shipped with an unfinished toekick. Finished toekicks in matching wood veneer or laminate must be ordered separately and field installed.

Standard Universal Access toekick is 4 1/2" tall, which will align with base cabinets.

Heat shields are available for field installation. See page 148.

Full depth shelf kits are available for field installation. See page 141.

VWS3323	783	783	783	783	783	783	783	783	783	783	783

- Recommended installation height of 32" high with 9" of clearance below.
- Front panel is attached with clips for easy removal for access to plumbing.
- Finished veneer plywood exterior and interior.
- For proper installation, cabinet must be secured on each side through both the top and bottom of the back panel into wall studs. Installation instructions and required 3 1/2" installation screws included, standard 2 1/2" installation screws are not sufficient in this application.
- Features a full cabinet top that can be routed for sink installation.
- Approximate weight limit is 400 lbs. per cabinet (includes weight of the cabinet, countertop and contents). Proper installation is required and additional bracing may be required.
- Includes connector clips to mount the sink base to the Removable Vanity Sink Base (RVWS..32). RVWS..32 not included, see below.

Utility cabinets with depths of 12" must be installed to studs in wall or onto the end of another tall cabinet.

Remember to apply an end panel skin to all tall cabinets when installing next to a base and a wall cabinet to avoid notching the countertop around the face frame.

Apply an end panel skin to create a flush end on the side of a tall cabinet if installed at the end of a run for ease of moulding installation.

Separate pedestal base included but may be packaged separately on 93" and 96" tall. Pedestal is designed to create a Recessed Left or Right Toekick application during field installation, or can be centered. Pedestal must be covered with toeboard material.

Reduced depth available to 12" on tall cabinets without drawers. Reduced Depth available to 18" on tall cabinets with drawers or roll trays.

Tall mitered door styles and laminate door styles will feature one center panel; other door styles will feature two center panels.

- Uses face mount hinges, doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Base section will utilize a full depth shelf.
- 90", 93", and 96" tall include full depth adjustable shelves in upper section:
90" and 93" tall - one shelf
96" tall - two shelves
- Oven cavity is standard interior.
- All top and bottom cross rails are 1 1/2" wide.
- All cabinets have 3" stiles on frame.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Shelf support for oven not included; for built-in appliance support brackets, use OCINSTALLKIT (included in 24" deep cabinets).
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- Oven cabinet cut-out is shaded in gray and is cut out on job site.

- Uses face mount hinges, doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- 90", 93", and 96" tall include full depth adjustable shelves in upper section:
90" and 93" tall - one shelf
96" tall - two shelves
- Oven cavity is standard interior.
- For built-in double oven applications, remove drawer as needed.
- All top and bottom cross rails are 1 1/2" wide.
- All cabinets have 3" stiles on frame.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Support shelf for oven not included; for built-in appliance support brackets, use OCINSTALLKIT (included in 24" deep cabinets).
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- Maximum w/ Drawer cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- If the maximum height (as shown in gray) is cut out, the drawer will no longer be included. See chart below for maximum cut-out allowed if you want to keep the drawer.

- Designed for use with separate built-in microwave above, built-in oven below. For built-in double ovens, see pages 98-101.
- On 93" and 96" tall, one full depth shelf included, but packaged separately.
- Uses face mount hinges, doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- All top and bottom cross rails are 1 1/2" wide.
- All cabinets have 3" stiles on frame.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 148 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.
- Maximum w/ Drawer cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.
- Oven cabinet cut-out is shaded in gray and is cut out on job site.
- If the maximum height (as shown in gray) is cut out, the drawer will no longer be included. See chart below for maximum cut-out allowed if you want to keep the drawer.

Vanity Cabinets are shipped with an unfinished toekick. Finished toekicks in matching wood veneer or laminate must be ordered separately and field installed.

Standard vanity toekick height is 4 1/2" tall, which will align with standard base cabinets.

Distance between back of drawer box and back interior of cabinet is 2 3/4".

There will be no charge for RD18 on 21" deep vanity cabinets.

For Linen cabinets, Tall mitered door styles and laminate door styles will feature one center panel, other door styles will feature two center panels.

UCDS3621	511	521	547	559	584	596	602	627	632	660	688

- Cabinet is 4 3/4" high. Drawer box within cabinet is 2" high (outside dimension).
- Not trimmable.
- Drawer front is 3/4" slab for all styles. Slab drawer fronts on certain laminate door styles will be painted hardwood. See Door Style section for exceptions.
- The frame to end panel offset is 3/4", which is designed to accommodate the vanity desk leg.
- Plywood end panels are unfinished.

TABLE OF CONTENTS – FILLERS & PANELS

Fillers	122
Box Column Fillers	124
End Panel Skins	125
Back Panels	126
End Panels	127
End Panel with Filler Attached	128
Decorative Door Panel Kits	130

When designing with full overlay door styles, apply overlay fillers onto fillers.

If glaze finish is used, a v-grooved skin offers best finish consistency.

All 1/4" thick panel material cannot be used in conjunction with cabinets with FPFB or AUTHL/AUTHR/AUTHB modifications.

SPECIES AVAILABILITY

Species Availability charts list the availability of each product code by species and any substitutions that are made. Additional exceptions within a section are noted below the species availability chart.

For panels with doors and/or fillers attached, species availability is shown for the panel and filler only.

For Species Availability, look for this chart throughout.

DECORATIVE HARDWARE - TOUCH LATCH		

TOUCH LATCH

TOUHLATCH

35

- Nylon gray mechanism with bumper tip.
- Face frame will need to be field drilled for insertion of the TOUCHLATCH, requires 25/64" (10mm) drill bit.
- Can be field adjusted for door gap depth, no tools required.
- For use on full overlay door styles only.
- Requires a soft touch to open the door, and door must be pushed closed to reset the TOUCHLATCH mechanism.
- Only for use on hinged doors, and can be used without decorative hardware. Not compatible with non-hinged doors. For drawers, pull-outs, and other non-compatible cabinets, PULLH105 and PULLH106 are recommended (see page 144).

D = Diameter
P = Projection (Hardware Depth)
L = Length
W = Width
B = Base
C/C = Center to Center

Installation screws included with each hardware piece.
 Breakoff screws available for purchase separately as BRKOFFSCREW, see page 153.
 Larger pulls may not be compatible with 5-piece drawer fronts on face frame openings of 9" wide or less.
 See Door Style section for 5-piece drawer front dimensions when specifying decorative hardware.

DOORS, DRAWER FRONTS AND DRAWERS

DOORS & DRAWER FRONTS

Standard Door Size, 18" High or Less	301
Standard Door Size, 21" to 30" High	377
Standard Door Size, 33" or Higher	530
Standard Door Size, No Hinge Route, 18" High or Less	301
Standard Door Size, No Hinge Route, 21" to 30" High	377
Standard Door Size, No Hinge Route, 33" or Higher	530
Any Drawer Front Only	139

- All applicable modification and premium finish upcharges will apply.
- Door heights are based on full overlay for equivalent applications.
- Backs of "NO HINGE ROUTE" doors may have identification marks, be unfinished, and have 3/16" diameter holes used during finish processing. For these reasons, these doors are not suitable for use as cabinet doors.

DRAWERS

Complete Drawer	222
Drawer Box Only	198

- All applicable modification and premium finish upcharges will apply.
- Complete Drawer and Drawer Box Only do not include drawer guides. They must be ordered separately.

MISCELLANEOUS PARTS

SHELFPEGS

BRKOFFSCREW (pkg. 25)	6
INSTALLSCR4 (pkg. 4)	5
INSTALLSCREWS (pkg. 100)	20
RETCLIP250BAG	20
RETCLIP259BAG	20
BUMPERPADS (pkg. 25)	8
SHELFPEGS (pkg. 24)	12

- BRKOFFSCREW is a pack of 25 breakaway screws for use with decorative hardware pulls and knobs.
- INSTALLSCR4 and INSTALLSCREWS are screws for cabinet installation through the cabinet back to the wall studs (includes a pack of 4 or 100).
- RETCLIP250BAG: 6 retainer clips for use with glass inserts in mullion and cut-for-glass doors. For use on all styles except laminate doors.
- RETCLIP259BAG: 6 retainer clips and a variety of rubber feet for use with glass inserts in mullion and cut-for-glass doors. For use on all laminate doors only.
- SHELFPEGS are 3mm steel pins with clear plastic shoulders.

STACK MOULDING KITS

- Moulding stacks do not ship assembled; field assembly is required. Assembly instructions can be viewed in 20/20 spec pages and will also ship with moulding kits.
- When ordered as a kit, only one finish can be specified. To order with more than one finish, moulding pieces must be ordered separately.
- Moulding stacks include Assembly Instructions. Cleats and finish nails not included.

- How to place a stack moulding in 20/20:
 - Moulding
 - Top Mouldings or Bottom Mouldings
 - Stacked Mouldings
 - Drag and drop desired moulding stack onto wall cabinets
- Mouldings specified as 8' nominal length have a usable length range of 93" up to 99". Be sure to order the correct amount of moulding length to work around required cuts with minimal butt joints.

Diamond[®]

VIBE™ SERIES

Dear Diamond Vibe Customer,

Congratulations on your selection of Diamond Vibe cabinetry in a Painted Hardwood or Painted Hardwood with Glaze finish. Because of its unique characteristics, this finish is quite different from other cabinetry finishes you may be familiar with. Your satisfaction is important to Diamond Vibe, and we want you to fully understand the characteristics that make painted finishes so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Diamond Vibe utilizes only select solid hardwoods and veneers. The beauty of these genuine woods lies in the variation of the grain. The textures of those natural grain patterns often remain visible with Painted Hardwood finishes and should be accepted as inherent characteristics when selecting painted cabinetry.

Seam lines and hairline cracking at stile, rail and panel joints are a normal characteristic of painted finishes and should not be considered a reason for product replacement. When ordering Painted Hardwood 5-piece styles, the door's center panel will be constructed of MDF material. Over time, there may be a slight color shift in the Painted Hardwood finish due to the continued exposure to natural and artificial light sources. We mention these characteristics because neither Diamond Vibe nor your Diamond Vibe dealer can be responsible for these conditions and variations.

Example of front joint separation

Example of front joint separation

Example of end joint separation

Accordingly, we ask that the following agreement be signed for Painted Hardwood Finish orders.

I have read the foregoing and find the characteristic variations of Painted Hardwood finish to be desirable. As such, I agree not to hold Diamond Vibe and/or the Diamond Vibe dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

POLICIES/INFORMATION

DISCONTINUED PRODUCT POLICY

60 days minimum notice to reps and customers announcing the discontinuation of a product line.

Product will no longer be available for order after the discontinuation date. Only warranty orders will be considered. Even with warranty orders we will have the option to replace customer's defective product with the same discontinued product they originally purchased, or replace all doors originally ordered with a current product that is similar in appearance.

EXPRESS RESPONSE™ PROGRAM - GUIDELINES

OUR COMMITMENT TO DESIGNERS AND CUSTOMERS

PURPOSE

The Express Response program is used to expedite orders when customers need product faster than normal lead-time to correct problems with an existing order. Below is an overview of the Express Response program and what you can expect from our commitment to superior service.

EXPRESS RESPONSE GUIDELINES

- Eligible orders must be associated with a previous order number.
- Lead time calculation is based on receipt of a clean order. Clean orders are orders in which all information is provided and accurate.
- There is no additional upcharge for Express Response.
- There are no cancellations or returns once an Express Response order is received.
- Due to the nature of Special Product Requests and appliance panels, they are excluded from Express Response and will be processed as a standard lead-time order.
- Express Response is available within the continental United States. Should Alaska, Hawaii or international shipments be required, customer service representatives are ready to assist by providing shipping information and determining lead times.

QUESTIONS?

Contact Customer Service for estimated lead times.

CABINET INSTALLATION INSTRUCTIONS

WARRANTY

Diamond® Vibe™ Series has a Limited Lifetime Warranty. For terms and conditions, please visit: <https://www.diamondcabinets.com/warranty>.

WOOD DUST WARNING

When cutting, sanding, sawing, or shaping cabinets or wood products, you are likely to generate wood dust. For your own safety, we recommend that you wear a protective mask to prevent breathing wood dust. We also recommend eye protection to avoid injury by flying wood chips or sawdust during cabinet installation.

CERTIFICATIONS

ANSI A161.1

Our products meet or exceed the ANSI A161.1 performance and construction standards for kitchen and vanity cabinets as certified by ICC-ES (International Code Council Evaluation Service). Learn more at masterbrandcabinets.com/certifications.

TSCA TITLE VI

TSCA Title VI is a U.S. regulation that sets formaldehyde emissions standards for composite wood products, such as hardwood plywood, medium-density fiberboard, and particleboard, as well as products containing them, such as furniture. It requires composite wood products to be tested and certified by EPA-recognized third-party certifiers using specific methods. This federal regulation applies to all states and territories in the U.S. and is identical to the California Air Resources Board (CARB) rule. Learn more at masterbrandcabinets.com/certifications.

CARB COMPLIANCE - FORMALDEHYDE EMISSIONS

Diamond Vibe Cabinetry is committed to offering solutions that meet or exceed air emissions rules and regulations. All composite wood products used in the construction of our cabinets, which includes end panels, bottoms, backs, shelves, toekicks and corner blocks, are compliant with emissions limits under EPA TSCA Title VI, CARB Phase 2 and HUD.

TERMS AND CONDITIONS

DIAMOND VIBE CABINETS LIFETIME LIMITED WARRANTY AND GENERAL INFORMATION

Prices and specifications in material, construction and design are subject to change without notice as conditions require, or as improvements are developed.

All orders are subject to credit approval.

To avoid errors, orders should be filled out on Diamond Vibe Cabinet forms.

All cabinets are manufactured to individual order and cannot be cancelled or changed after manufacturing has begun. Cycle ship orders cannot be changed after the cut-off date.

Returns will not be accepted without prior written authorization.

Diamond Vibe cabinets carry a Lifetime Limited Warranty. This limited warranty does not cover misuse*, improper storage, improper installation, labor costs or defects incurred during installation, storage or transportation. We reserve the right to repair or replace any defective material after field inspection by our representative. For complete warranty details, please refer to the Diamond Vibe Warranty Document.

A product count and inspection must be performed before signing the Bill of Lading. Shortage, obvious damage and occurrences of mishandling must be noted on the Bill of Lading before it is signed. Replacement orders must then be made with Diamond Vibe Customer Service. A signed Bill of Lading with no notations will indicate a complete and damage free shipment.

Sales are only to approved, authorized accounts.

Please make reference to the cabinet selection guide for information pertaining to characteristics of wood. This information will tell you the reactions that natural woods might develop under certain conditions after product is finished.

Diamond[®]

Make your mark.[™]

Share your design with us by tagging us
on social with #DiamondCabinets.

Styles, product availability and construction may vary slightly from those shown in this book due to material availability and/or design evolution. Specifications are subject to change without notice. Customer service is available if your design requires verification of product availability and specifications.

Product photography and illustrations have been reproduced as accurately as printing technologies permit. To ensure highest satisfaction, we strongly recommend you view an actual sample for best color, wood grain and finish representation.

Diamond[®] has a Limited Lifetime Warranty.
