

Dear Diamond Vibe Customer,

Congratulations on your selection of Diamond Vibe cabinetry in an Opaque or Opaque with Glaze finish. Because of its unique characteristics, this finish is quite different from other cabinetry finishes you may be familiar with. Your satisfaction is important to Diamond Vibe, and we want you to fully understand the characteristics that make painted finishes so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Diamond Vibe utilizes only select solid hardwoods and hardwood veneers. The beauty of these genuine woods lies in the variation of the grain. The textures of those natural grain patterns often remain visible with paint finish and should be accepted as inherent characteristics when selecting painted cabinetry.

Seam lines and hairline cracking at stile, rail and panel joints are a normal characteristic of painted/opaque finishes and should not be considered a reason for product replacement. When ordering painted Maple 5-piece styles, the door's center panel will be constructed of MDF material. Over time, there may be a slight color shift in the paint finish due to the continued exposure to natural and artificial light sources. We mention these characteristics because neither Diamond Vibe nor your Diamond Vibe dealer can be responsible for these conditions and variations.

Accordingly, we ask that the following agreement be signed for Paint Finish orders.

I have read the foregoing and find the characteristic variations of wood with painted finish are desirable. As such, I agree not to hold Diamond Vibe and/or the Diamond Vibe dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.
