Features

STANDARD 16MM BACK & SIDES

16 mm thick wood based composite panel with matching laminate exposed exterior surfaces. Cabinets will come with white laminate interiors and a 3 mm thick hardboard back combined with 16 mm x 127 mm hanging rails.

CROSS SUPPORT STRETCHERS

16 mm thick x 127 mm deep wood based composite panel running the width of most base and vanity base cabinets, with designated matching edge band for front face.

EDGE BANDED SHELVES

16 mm thick wood based composite panel with white laminate on both faces and white edge band on front edge. Shelves are adjustable in all cabinets.

UPGRADEABLE DRAWER

16 mm solid wood drawer box with captive 6 mm matching laminate bottom can be upgraded to a white metal drawer box comprised of 1.6 mm thick metal drawer sides and 16 mm thick drawer bottom and back.

UPGRADEABLE HARDWARE

Value option 100lb epoxy slides and standard 6-way adjustable hinges can be upgraded to 100lb undermount soft-close slides and soft-closing hinges.

QUALITY LAMINATE FINISH

2D film with high scratch resistance and anti-fingerprint properties.
Solid finish options have a velvet touch.
