

Diamond[®]

VIBE™ SERIES

CABINETRY
PRICE & SPECIFICATION GUIDE

SUPERSEDES ALL PRIOR VERSIONS
MARCH 2022

A woman with blonde hair is sitting on a light-colored sofa. She is wearing a light purple button-down shirt and dark trousers. She is holding a white phone to her ear with her left hand and has her right hand on the trackpad of a silver laptop. The laptop is open and resting on her lap. The background is a bright, out-of-focus interior space.

CHARACTERISTICS OF LAMINATE

The surfaces of doors, drawer fronts, and overlay fillers feature laminate materials with an integrated top coat that provides superior beauty, durability, and performance while meeting or exceeding all of the KCMA performance standards. The core panel material is made of MDF to ensure a consistent and stable product.

A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

CHARACTERISTICS OF PURESTYLE™ LAMINATE

PureStyle™ is an innovative laminate that is applied to a wood or engineered wood substrate. Characteristics include crisp styling, consistent coloration, and abrasion-resistant durability.

These doors offer the durability of a laminate and the beauty of paint while bringing peace of mind to those who care about creating a better environment — both inside and outside of their homes.

PureStyle™ doors can be distinguished from painted cabinets by their picture perfect distribution of satin smooth color on a sleek surface with optimum durability. Trim items will feature a matching painted finish except where noted in product specifications.

A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

CHARACTERISTICS OF WOOD TYPES

No matter which species you choose for your new kitchen or bath cabinetry, please keep in mind that no two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat or moisture. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes and wormholes. These markings make the wood unique and contribute to its enduring beauty.

Cherry - features a uniform grain pattern that may reveal pin knots, curled graining and occasional black mineral streaks. With predominantly red undertones, expect color variation from creamy white to deep brown, especially in natural and lighter finishes. Cherry darkens with age and the darkening process is enhanced by exposure to natural light.

Maple - is a tight-grained, uniform hardwood that may include fine brown lines, wavy or curled markings, bird pecks and mineral streaks. It is predominately white to creamy-white in color with occasional reddish-brown tones.

Oak - is an open-grained hardwood that may contain knots, wormholes and highly varying grain patterns, adding to the unique characteristics of the wood. Oak's coloration ranges from white to pink and reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits.

Painted Hardwood - finishes combine hardwoods and engineered materials including solid-wood, engineered materials — such as medium density fiberboard (MDF) and high density fiberboard (HDF) — and similar composite materials providing a smoother surface for painting and superior stability, consistency, and durability.

In keeping with our practice of continuous product improvement and/or to maximize efficiencies, Diamond Vibe Cabinetry may adjust specifications in design and materials as it deems necessary. Where differing materials are utilized, they will be of similar or better quality in keeping with Diamond Vibe Cabinetry's commitment to quality.

Door Style Reference Number Chart

Your Diamond Vibe price guide contains charts with prices for each cabinetry product, arranged according to a numerical code. Use the chart below to determine the price code for your preferred cabinetry style.

OVERLAY SPECIFICATIONS

**Partial Overlay**

The door and drawer fronts overlay the face frame $1/2''$, exposing $1''$ of the frame both on the stile and rail members. Typical wall and base cabinets with a center stile expose $2''$ of that stile.

**Exceptions on Face Frame Reveals**

- Some oven units have $3''$ stiles and $9''$ intermediate rails (designed for universal flexibility of cut-out options) that create various reveals.
- Blind corner wall and base cabinets expose different center stile reveals. Diagonal corners also vary.
- Please see the dimensional charts for oven units and blind bases located in those sections.

*On Partial Overlay 2DB__ (Two Drawer Bases), reveal above the bottom drawer front is $2''$.

OVERLAY SPECIFICATIONS

5

DOOR STYLES

Full Overlay

The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

Full Overlay

Modified Full Overlay

Wall and Tall Cabinets: The door and drawer fronts overlay the frame exposing 1/4" on the bottom rail and right and left stile. One full inch is exposed on the top rail of wall and tall cabinets. Typical units with a center stile expose 1/2" of that stile.

Base Cabinets: The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

Modified Full Overlay (Wall and Tall)

Modified Full Overlay (Base)

*34 1/2" high application shown. On 32" high Full Overlay three drawer applications (drawer bases and sink bases with drawers), the reveal above the bottom drawer front is 1/2".

- One double door center stile cabinet has the same reveal as two single door cabinets.

DOOR STYLE SPECIFICATIONS

Cherry

- When Cherry door styles are ordered, it is recommended to apply a finished end option or a veneer end panel for exposed ends due to the natural aging of Cherry.

All Door Styles

- All doors and drawer fronts are 3/4" thick unless otherwise noted.

Door and Drawer Front Side Profiles

- Veneer and MDF components are shown with gray shading on side profiles. Solid-wood components do not have shading.

Wood Grain

- See reference images for wood grain direction on all door styles.

*Requires APW or PLE upgrade. Discount of 5% applied to all applicable products. When cabinets are finished by an outside source, finish is not covered under warranty. Interiors of cabinets will be natural Maple laminate. For finishable interiors, MIP must be specified.

Cherry laminate components are intentionally slightly darker than cabinet facings at the time of manufacturing to compensate for the expected darkening of doors, drawer fronts, etc., as they are exposed to natural sunlight.

DIAMOND VIBE CABINETRY'S 12-STEP FINISHING PROCESS

- 1. Wood Selection** – The selection of the finest woods is the essential first step of the 12-step finishing process.
- 2. Sanded to Perfection** – Our sanding utilizes a fine grit paper, both with and against the wood grain. This process is completed on a vacuum table, allowing for a wood surface that is free of dust particles.
- 3. Achieving Natural Wood Tone** – Toner is applied to selected finishes, enhancing the naturalistic wood appearance.
- 4. Stain Application** – A hand-sprayed deep saturating stain is evenly applied to all surfaces for even coverage on all profiles. On multi-step stains and glaze finishes, some non-facing surfaces (such as backs of doors, backs of panels, and matching veneer interiors) may not receive all steps noted. The resulting finish will be complementary and similar in color and have the same catalyzed top coat and cure, but may not result in the same color depth as facing surfaces.
- 5. Removal of Excess Stain** – The wood is hand-wiped to remove excess stain, emphasizing the cabinet's natural wood grain.
- 6. Catalyzed Sealer** – A tough, clear, catalyzed sealer is hand-sprayed on to protect the grain from moisture.
- 7. Drying Process** – For added durability, the sealed wood is oven cured to lock in the beauty of wood.
- 8. Hand-Sanded** – To achieve an ultra-smooth finish, we hand-sand the material one last time.
- 9. Dust Removal** – The resulting loose dust particles are removed from the surface of the wood.
- 10. Catalyzed Top Coat** – A premium quality catalyzed top coat is applied to protect the wood from environmental elements.
- 11. Final Top Coat Cure** – The top coat is cured for a strong, beautiful finish.
- 12. Final Inspection** – This last inspection is very thorough, ensuring quality and beauty. Our gift to you is that every cabinet is crafted with care.

CHARACTERISTICS OF GLAZING/PAINT

Characteristics of Glazing

A professional glaze can add another layer of beauty to your cabinets. The glazing is applied by hand, adding depth dimension and an understated sheen that's guaranteed to endure.

What to expect from glazed cabinetry...

- You should expect the result to yield a subtle to dramatic look based on the complexity of a cabinet door's design, as glazing may collect in the corners and grooves.
- Printed materials and online, electronic presentations can only do so much. It's important to both see and touch actual finished samples to ensure your satisfaction.

Characteristics of Paint

Paint may develop hairline cracks in the finish, most notable around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish.

DRAWER FRONT AND DOOR OPTIONS

See page 17 for modification compatibility. Each modification will be priced accordingly.

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS	PRICING
Drawer Front Flat 5-piece (DFF5PC)	Base, tall, and vanity cabinets on Bluffton, Breman, Bryant, Farrah, Kenora, Lawford, and Wendell (Wood Species Only)	Replaces the standard drawer front with a 5-piece drawer front (see images with applicable door styles). Must upgrade all drawer fronts on a cabinet where applicable. Premium finish upcharges will apply where applicable. See below for 5-piece drawer front dimensions when specifying decorative hardware.	\$102 list per drawer
Modified Full Overlay (MFO) 	Full Overlay door styles of wall and tall cabinets; select other room and vanity cabinets	Wall and Tall Cabinets: The door and drawer fronts overlay the frame, exposing 1/4" on the bottom rail and right and left stile. One full inch is exposed on the top rail of wall and tall cabinets. Typical units with a center stile expose 1/2" of that stile. Base Cabinets: The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile. MFO modification allows for face mount moulding application. Overlay Fillers are available in MFO heights to align with doors, see page 128 for OL..MFO.	No Upcharge

CUT-FOR-GLASS DOORS (CG)

Glass not included in price, but can be ordered separately. See below for details.

Cut-for-glass Door To Fit:	PRICE
	List per Door
30" High or Shorter Wall Cabinet	97
33" High Wall Cabinet	97
36" High Wall Cabinet	97
39" High Wall Cabinet	97
42" High Wall Cabinet	97

To price Cut-for-glass Doors attached to a cabinet, add the Door Only list price per door to the wall cabinet price (MIP modification upcharge will be applied to the cabinet price if matching interior is desired).

For a door only (not specified on a cabinet), add the list price for a door only to the Cut-for-glass door list price. See Doors and Drawer Fronts on page 157 for details.

- Not available on bifold doors.
- Specify Door Style and Finish when ordering Cut-for-glass Doors.
- CG.TOP and CG.BTM are specified on cabinets with upper and lower doors to designate which doors should be Cut-for-glass. See Door Options grid for SKU availability.
- Custom door sizes not available.
- Glass available for order separately (see pages 32-33).
- When a decorative door option is chosen in 20/20, Matching Interior Plywood (MIP) is a preselected option. If MIP is not desired, it can be deselected by choosing NOTMIP.
- All textured glass panels will be drop shipped separately from the cabinet order.
- Glass installation clips will ship with the doors and/or cabinets.
- The use of glass for base cabinet applications or for placement near interior or exterior doors is not recommended.

DISCONTINUED PRODUCT POLICY

60 days minimum notice to reps and customers announcing the discontinuation of a product line.

Product will no longer be available for order after the discontinuation date. Only warranty orders will be considered. Even with warranty orders we will have the option to replace customer's defective product with the same discontinued product they originally purchased, or replace all doors originally ordered with a current product that is similar in appearance.

42

EXPRESS RESPONSE™ POLICY

Diamond Vibe's Express Response program is designed to expedite orders when customers need product faster than normal lead times to correct problems with an existing order. Below is an overview of the program and what you can expect from Diamond Vibe's commitment to superior service.

GUIDELINES

- Orders must be submitted using the OneTouch Express Response function to receive rush expediting. All phoned-in, faxed or emailed orders will follow current standard lead times.
- Warranty or replacements for orders no longer available on OneTouch should be placed by fax or email using the updated ER Order form.
- Order must be associated with a previous order number.
- All orders received by 12 NOON E.T. Monday-Friday will be automatically scheduled for Express Response that same day. Orders received after the cutoff time will be processed on the next business day.
- Lead time calculation is based on receipt of a clean order on a credit-worthy account. Clean orders are orders in which all information is provided and accurate.
- There is no additional up-charge for Express Response.
- There are no cancellations or returns once order is received.
- Due to the special nature of Special Orders and Appliance Panels, they are excluded from the Express Response program and will be processed as a standard lead time order.
- Express Response is available within the continental United States. Should Alaska, Hawaii or international shipments be required, customer service representatives are ready to assist by providing shipping information and determining lead times.

LEAD TIMES

12 WORKING DAYS OR LESS FROM ORDER TO DELIVERY (channel partner or home delivery agent):

- Items shipped via LTL (via SuperPAC™) or truckload.
- Includes all catalog items except those that can be expedited through the 5-day program listed below.

5 WORKING DAYS FROM ORDER TO DELIVERY

- Qualified items are designated in the Pricing/Specification Guide with an icon 
- Items will ship via parcel ground.
 - Lead time calculation allows for 2 days parcel ground shipping time. Some geographic areas may require additional shipping time.
- For orders containing both 12 day and 5 day items, the longer lead time applies.

CABINET CARE AND CLEANING

<https://www.masterbrand.com/care-and-cleaning>

DIAMOND VIBE CABINETRY'S DESIGN CHECKLIST

CONSTRUCTION OPTIONS

Consider exposed end options:

- ☐ Modify exposed cabinet ends to FPEB.
- ☐ Apply 1/4" skin to hide 1/4" reveal. This will allow the ends to age uniformly with the rest of the kitchen and will make it flush.
- ☐ Apply decorative door kit (BEDSD, WED, TED). This kit includes 1/4" skin, decorative doors, and screws for field installation.

WOOD AND FINISH CHARACTERISTICS

Review specific details with the customer:

- ☐ Mineral Streaks, Birdseye Dots, Grain Variations.
- ☐ Color Variations/Darkening.
- ☐ Finish Variations (Glazes are "consistently inconsistent"), hairline cracks may develop at frame joints on painted frame.
- ☐ Underside of cabinets are natural maple laminate. Use light rail or cabinet panel edge and skin to hide, especially when designing with peninsula wall cabinets.

LOGIX®

Review storage and usage needs with Customer. See page 46 for complete chart.

- ☐ Cooking Solutions:
 - Wall Spice Rack Cabinet
- ☐ Storage Solutions:
 - SuperCabinet™
 - Pegged Dish Organizer
 - Wall Message Center
- ☐ Clean-up Center:
 - Base Wastebasket

CLEARANCES

- ☐ Add fillers between end cabinets and walls on full overlay door styles.
- ☐ Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- ☐ Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.

Maintain a minimum clearance of 3" by pulling blind corners as follows:

- ☐ Full Overlay: 1 1/4", Standard Overlay 1/2". (More is needed in certain situations such as when adjacent to an appliance or when using oversized pulls or knobs.)
- ☐ Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, etc). Doors on these cabinets must open fully for accessories to be functional.
- ☐ Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Qualify customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- ☐ Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- ☐ Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

FILLERS

- ☐ Place fillers toward end of run where least conspicuous if needed.
- ☐ Attach overlay fillers on top of the base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.
- ☐ Add a filler at least 6" wide to accommodate a decorative onlay when the filler is used as valance.

VARYING HEIGHTS AND DEPTHS

- ☐ Also increase the depth of a wall cabinet run when you increase the height (so moulding on adjacent cabinet will kill into the side of the taller cabinet).
- ☐ Skin the sides of tall cabinets to 1) hide the seam between the toekick pedestal and the cabinet, 2) keep adjacent base and wall cabinets out from reveal of tall cabinet.
- ☐ Add increased depth on tall end panels for a built-in look for deep refrigerators.
- ☐ Account for the additional support needed for wall cabinets with a depth of 18" or greater. This can be achieved by installing a soffit or end panels.

MATCHING INTERIOR CABINETS/GLASS OPTIONS

- ☐ Verify cut-for-glass or mullion door option is available on desired cabinet size. (See pages 30-31 for available cut-for-glass/mullion door sizes.)
- ☐ Verify glass insert option is available for desired cut-for-glass door size chosen.
- ☐ Verify matching interior option has been selected for all open or glass cabinets.
- ☐ Use light rail and skin to hide color variation between bottom of cabinets with and without matching interior.
- ☐ Verify mullion door lite grid matches customer expectations.

MOULDINGS

- ☐ Verify correct amount of crown moulding has been ordered.
- ☐ Order toekick caps.
- ☐ Order extra scribe.

ISLANDS AND PENINSULAS

- ☐ Consider standard height bars are 34 1/2" tall and require 19" knee space. Raised bars are 42" tall.
- ☐ Consider base peninsula cabinets (P) are 24 1/4" deep and require 12" of knee space. Use back panels/doors to flush non-P cabinets with P cabinets.
- ☐ Use outside corner moulding if a skin is exposed on the back of the island.

APPLIANCES

- ☐ Note for all consumers, appliances are not included with any cabinetry product.
- ☐ Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- ☐ Verify refrigerator door has enough clearance to open beyond 90 degrees so refrigerator drawers can be utilized. Refer to appliance manufacturer's specs.
- ☐ Add TF696FH, as it may be required to frame around built-in microwave ovens and other built-in items. Refer to appliance manufacturer's specs.
- ☐ Order appliance panels.

SPECIAL CONSIDERATIONS

- ☐ Consider V-groove skins and/or decorative doors on exposed cabinet sides in glazed kitchen.

MISCELLANEOUS

- ☐ Order full size touch-up kit (mini touch-up kit included with standard sink base).

kitchen planning guidelines

DOOR/ENTRY

- Door opening should be at least 32" wide, requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- Entry door should not interfere with safe appliance operation or appliance doors.

DISTANCE BETWEEN WORK CENTERS

- With three work centers, the total distance traveled should not be more than 26' with no single leg of the triangle less than 4' or more than 9'.
- With more than three work centers, each additional travel distance to another work center should be no less than 4' or more than 9'. Each leg is measured from the center-front of the appliance/sink. No work triangle leg should intersect an island/peninsula by more than 12".

SEPARATING WORK CENTERS

- A tall obstacle should not separate two primary work centers. A properly recessed tall corner unit is acceptable.

WORK TRIANGLE TRAFFIC

- Major traffic patterns should not cross through the basic work triangle.

WORK AISLE

- The work aisle should be at least 42" for one cook and at least 48" for multiple cooks.

WALKWAY

- The walkway width should be at least 36".

TRAFFIC CLEARANCE AT SEATING

- Allow 32" of clearance from the table to wall/obstacle if no traffic passes behind a seated diner. If traffic passes behind the diner, allow at least 36" to edge past or 44" to walk past.

SEATING CLEARANCE

- 30" high tables/counters should allow a 24" wide by 18" deep space for each seated diner and at least 18" knee space.
- 36" high counters should allow a 24" wide by 15" deep space for each seated diner and at least 15" kneespace.
- 42" high counters should allow a 24" wide by 12" deep space for each seated diner and at least 12" kneespace.

CLEAN-UP/PREP SINK PLACEMENT

- With only one sink, locate it adjacent to or across from the cooking surface and refrigerator.

CLEAN-UP/PREP SINK LANDING AREA

- Include at least a 24" wide landing space on one side of the sink and 18" on the other.
- If all the countertop at the sink is not the same height, plan a 24" landing space on one side of the sink and 3" of countertop frontage on the other, both at the same height of the sink.

PREPARATION/WORK AREA

- Include a section of countertop at least 36" wide x 24" deep next to the sink for a work area.

DISHWASHER PLACEMENT

- Nearest edge of dishwasher should be within 36" of nearest edge of sink. Provide at least 21" of standing space between the edge of the dishwasher and countertop frontage/appliances/cabinets which are placed at a right angle to the dishwasher.

WASTE RECEPTACLES

- Include at least 2 waste receptacles, one near the sink and the other nearby for recycling.

AUXILIARY SINK

- Provide at least 3" of countertop frontage on one side of the auxiliary sink and 18" on the other side, both at the same height as the sink.

REFRIGERATOR LANDING AREA

- Include at least 15" of landing area on the handle side of the refrigerator, 15" on either side of a side-by-side refrigerator, 15" of landing space which is no more than 48" across from the front of the refrigerator, and 15" above or adjacent to any under-counter style refrigerator.

COOKING SURFACE LANDING AREA

- Include a minimum of 12" of landing area on one side of the cooking surface and 15" on the other.
- If cooking surface is at a different countertop height than the rest of the kitchen, then the 12" and 15" landing areas must be the same height as the cooking surface.
- For safety reasons, in an island or peninsula situation, the countertop should extend a minimum of 9" behind the cooking surface if the counter height is the same height as the cooking surface.

COOKING SURFACE CLEARANCE

- Allow 24" between the cooking surface and a protected noncombustible surface above it.
- At least 30" of clearance is required between the cooking surface and an unprotected/combustible surface above it.
- If a microwave/hood combination is used, then the manufacturer's specifications should be followed.

COOKING SURFACE VENTILATION

- A correctly sized, ducted ventilation system is recommended for all cooking surface appliances. The recommended minimum is 150 CFM.
- Code requires that the manufacturer's specifications be followed. Minimum exhaust rate for a ducted hood is 100 CFM and must be ducted to the outside.
- Make-up air may need to be provided. Refer to local codes.

COOKING SURFACE SAFETY

- Do not locate cooking surface under an operable window.
- Window treatments above cooking surface should not use flammable materials.
- Place a fire extinguisher near the kitchen exit away from cooking equipment.

MICROWAVE OVEN PLACEMENT

- The ideal location for the bottom of the microwave is 3" below the principle user's shoulder, but no more than 54" above the floor.

MICROWAVE LANDING AREA

- Provide at least 15" above, below, or adjacent to the handle side of a microwave oven.

OVEN LANDING AREA

- Include at least 15" next to or above the oven.
- A 15" landing area that is not more than 48" away is also acceptable as long as the oven does not open into a walkway.

COMBINING LANDING AREAS

- If two landing areas are adjacent to one another, determine a new minimum for the two by taking the longer of the two and adding 12".

continued

kitchen planning guidelines (continued)

COUNTERTOP SPACE

- A total of 158" of countertop frontage, 24" deep, with at least 15" clearance above is needed to accommodate all landing, preparation, work, and storage areas.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

STORAGE

- The recommended total shelf/drawer frontage for a small kitchen (less than 150 square feet) is 1400", for a medium kitchen (151 to 350 square feet) is 1700", and for a large kitchen (greater than 350 square feet) is 2000".

Sizes:	S	M	L
Wall	300"	360"	360"
Base	520"	615"	660"
Drawer	360"	400"	525"
Pantry	180"	230"	310"
Misc.	40"	95"	145"

- The totals for wall, base, drawer, and pantry shelf/drawer frontage can be adjusted upward or downward as long as the recommended total stays the same.

STORAGE AT CLEAN-UP/PREP SINK

- The recommended total for a small kitchen is 400", a medium kitchen is 480", a large kitchen is 560", and should be located within 72" of the centerline of the main clean-up/prep sink.

CORNER CABINET STORAGE

- At least one corner cabinet should include a functional storage device.

ELECTRICAL RECEPTACLES

- GFCI (Ground-Fault-Circuit-Interrupter) protection is required on all receptacles servicing countertop surfaces within the kitchen.

LIGHTING

- Every work surface should be well illuminated. At least one wall switch-controlled light must be placed at the entrance.
- Window/skylight area, equal to at least 8% of the total square footage of the kitchen, or a total living space which includes a kitchen, is required.

bathroom planning guidelines

DOOR/ENTRY

- Doorway opening should be at least 32", requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- The door area should include clear floor space for maneuvering which varies according to the type of door and the direction of the approach.

CEILING HEIGHT

- Bathroom floor to ceiling minimum height is 80". A shower or tub with a shower head shall have a minimum floor to ceiling height of 80" above a minimum area 30" x 30" at the shower head.

CLEAR SPACE

- Plan a clear space of 30" from the front edge of all fixtures to any opposite bath fixture, wall, or obstacle.
- A minimum space of at least 21" is required in front of a lavatory, toilet, bidet, and tub, with a 24" minimum space in front of a shower entry.

SINGLE LAVATORY PLACEMENT

- The distance from the centerline of the lavatory to the sidewall/tall obstacle should be at least 20".
- The minimum distance required is 15". The minimum distance required between a wall and the edge of a lavatory is 4".

DOUBLE LAVATORY PLACEMENT

- The distance between the centerlines of two lavatories should be at least 36".
- The minimum distance required is 30".
- The minimum distance required between the edges of two lavatories is 4".

LAVATORY/VANITY HEIGHT

- The height for a lavatory varies from 32" to 43" to fit the user.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

SHOWER SIZE

- The interior shower size should be at least 36" x 36". The minimum interior shower size required is 30" x 30".

STORAGE

- Provide adequate, accessible storage for toiletries, bath linens, grooming and general bathroom supplies.
- Storage of frequently used items should be 15" to 48" above floor.

ELECTRICAL RECEPTACLES

- All GFCI receptacles should be located at electrical appliance points of use.

Load bearing floors and shelves meet KCMA standards of 15 lbs. per square foot. Warranty does not cover overloading beyond this point.

Wall Corner Cabinets

- Wall corner cabinets may be installed flush to the wall (left) or pulled 3" away from wall (right) to accommodate odd dimensions in a kitchen design. In either case, the adjoining run of 12" wall cabinets plus a 3" filler will butt against the solid-wood panel.
- When a cabinet is "pulled" it will use proportionally more wall space, for example, a 30" wide WC pulled 2" will use 32" of space.
- The L or R in the cabinet's nomenclature indicates the location of cabinet void.
- Blind side of wall corner cabinets cannot be installed next to a range hood or microwave shelf unit due to door interference.

NOTE: All outside stiles are 1 1/2" wide

- Hinged door opens to 170°.
- Adjustable shelves.
- Legs at the front frames are 9" on 21" leg and 12" on 24" leg.
- Nomenclature for asymmetrical cabinets reads as follows:
First set of numbers = height
Second set of numbers = left side
Third set of numbers = right side
- Decorative hardware screws must be countersunk to prevent scratching of adjacent cabinets and face frame of ER.
- ER_ _2124L shown.

- Recommend installation between two cabinets. Can be installed on the end of a run or adjacent to an appliance with a 3/4" thick end panel.
- Install unit before removing shipping brace.
- All styles feature a natural finish full extension wood pull-out with adjustable shelves and chrome rail sides.
- In order to allow proper clearance for opening and closing, allow an additional 1/8" space between adjacent cabinet face frames. The 3" wide pull-outs require 3 1/8" space and the 6" wide pull-outs require 6 1/8" space. Spacers are included with the pull-outs to allow for proper installation.
- Not compatible with face mount moulding.
- For full access from both sides of unit, do not install against a wall or next to deeper appliances and cabinets.

- Includes magnetic whiteboard on back of door, key hooks, pencil holder, and fixed plexi-glass fronted shelves.
- WMC1230, WMC1233, and WMC1236 have 2 fixed shelves. WMC1239 and WMC1242 have 3 fixed shelves.
- Not recommended for use next to a Peninsula cabinet due to the additional 1/4" cabinet depth.
- Door will open 90° without decorative hardware.
- Cabinet should be hinged on wall side.
- For proper installation, adjacent cabinet must have FPEB or 1/4" skin applied.
- Overlay fillers can be used on side of cabinet to add a decorative touch.

- Nomenclature represents left to right order of interior components.
Example: BSC30PR = Base Supercabinet™ 30" Pull-out Roll-out.
- Roll trays are Full Extension side-mounted with a solid hardwood dovetail box.
- Cabinets utilize 170° hinge. For sufficient pull-out clearance, 12" of adjacent space is required for door to open 170° when installed near a wall or corner.
- Both doors have chrome and wood three-tiered 3 1/4" deep racks.
- Door rack width is 9 3/8".
- Door rack depth is 3".
- Integrated soft-close hinge not included. Premium door mechanism installed.

Base Corner Cabinets

- BCs use the wall space the nomenclature implies.
- Remember to use 3" filler on adjoining cabinets.
- The adjoining run of cabinets will cover the void.
- The L or R in the cabinet nomenclature indicates the location of the void to ensure clearance.
- It is not recommended to place BC cabinets next to appliances where any face component is deeper than 27".

Model	A Recommended Space	B Max. Pull*	C Max. Space	D Face Frame Opening	E* Full Overlay At Min.** At Max.	E Partial Overlay At Min.** At Max.	F Actual Cabinet	Full Overlay Door Width	Partial Overlay Door Width
BC36	36"	6"	42"	7 1/2"	1 3/4" 7 3/4"	2 1/2" 8 1/2"	27"	10"	8 1/2"

--------------	-----	-----	------	------	------	------	------	------	------	------	------	------	------

- BLS36 L or R wall width is 36" x 36".
- Cabinet is drum-shaped; adjoining cabinets create sides.
- BLS white plastic shelves are 28" diameter with a chrome pole.
- See Panels & Skins section for BLSBEP** if used at end of cabinet run.
- Drum diameter is 31 1/8" and composed of 1/8" thick hardboard.
- Decorative hardware screws must be countersunk to prevent scratching of adjacent cabinets and face frame of BLS.
- Not recommended for use next to an appliance deeper than standard cabinet depth.

- Recommend installation between two cabinets. Can be installed on the end of a run or adjacent to an appliance with a 3/4" thick end panel.
- Install unit before removing shipping brace.
- Includes unattached profiled full overlay filler on the Overlay SKUs.
- Wendell PureStyle™ overlays will be painted hardwood.
- Decorative hardware required on base units.
- Toekick not included; must be built up in the field.
- All styles feature a natural finish Smart Stop wood pull-out with adjustable shelves and chrome rail sides.
- In order to allow proper clearance for opening and closing, allow an additional 1/8" space between adjacent cabinet face frames. The 3" wide pull-outs require 3 1/8" space and the 6" wide pull-outs require 6 1/8" space. Spacers are included with the pull-outs to allow for proper installation.
- For full access from both sides of unit, do not install against a wall or next to deeper appliances and cabinets.

- Matching Interior Plywood (MIP) standard.
- Recommended installation height of 32" high with 9" of clearance below.
- Front panel is attached with clips for easy removal for access to plumbing.
- Finished veneer plywood exterior and interior.
- For proper installation, cabinet must be secured on each side through both the top and bottom of the back panel into wall studs. Installation instructions and required 3 1/2" installation screws included, standard 2 1/2" installation screws are not sufficient in this application.
- Features a full cabinet top that can be routed for sink installation.
- Approximate weight limit is 400 lbs. per cabinet (includes weight of the cabinet, countertop and contents). Proper installation is required and additional bracing may be required.
- Includes connector clips to mount the sink base to the Removable Vanity Sink Base (RVWS..32). RVWS..32 not included, see below.

- Uses face mount hinges, doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- Oven cavity is standard interior.
- Base section will utilize a full depth shelf.
- Upper section on 90" tall has one full depth adjustable shelf.
- All top and bottom cross rails are 1 1/2" wide.
- All cabinets have 3" stiles on frame.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Depth can be reduced to a minimum of 18".
- Shelf support for oven not included; for built-in appliance support brackets, use OCINSTALLKIT (included in 24" deep cabinets). OCINSTALLKIT weight limit is 400 lbs. per pair.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.

	A Frame Opening Height	B Cut-out Width		C Cut-out Height		Door Height (Upper Section)	
		Min.	Max.	Min.	Max.	Partial Overlay	Full Overlay
OSB308424	15"	24"	28 1/2"	22 1/2"	31 1/2"	16"	17 1/2"
OSB338424	15"	27"	31 1/2"	22 1/2"	31 1/2"	16"	17 1/2"

- Uses face mount hinges, doors and drawer fronts have a consistent width reveal for full overlay (1/4") and partial overlay (1").
- All top and bottom cross rails are 1 1/2" wide.
- All toekick areas are 4 1/2" high.
- All cabinets have 3" stiles on frame.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Separate pedestal base included but shipped separately on 93" and 96" tall. Pedestal is designed to create a Recessed Left or Right Toekick application during field installation, or can be centered. Pedestal must be covered with toeboard material.
- One full depth adjustable shelf included, but packaged separately.
- Depth can be reduced to a minimum of 18".
- For built-in appliance support, OCINSTALLKIT is included in 24" deep oven cabinets (see page 152 for details). Oven install kit will not be included when depth is modified.
- OCINSTALLKIT weight limit is 400 lbs. per pair.

	A Frame Opening Height	B Cut-out Width		C Cut-out Height		D Frame Opening Width	Door Height (Upper Section)	
		Min.	Max.	Min.	Max.		Partial Overlay	Full Overlay
OMC309324DD	21"	24"	28 1/2"	16 1/4"	31 1/4"	24"	22"	23 1/2"
OMC339324DD	21"	27"	31 1/2"	16 1/4"	31 1/4"	27"	22"	23 1/2"
OMC309624DD	24"	24"	28 1/2"	16 1/4"	31 1/4"	24"	25"	26 1/2"
OMC339624DD	24"	27"	31 1/2"	16 1/4"	31 1/4"	27"	25"	26 1/2"

Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full overlay and 1" for partial overlay for trim kit face clearance.

SPECIES AVAILABILITY

Species Availability charts list the availability of each product code by species and any substitutions that are made. Additional exceptions within a section are noted below the species availability chart.

For panels with doors and/or fillers attached, species availability is shown for the panel and filler only.

For Species Availability, look for this chart throughout.

PANELS & SKINS

MOULDING SPECIFICATIONS

Mouldings specified as 8' nominal length have a usable length range of 93" up to 99". Be sure to order the correct amount of moulding length to work around required cuts with minimal butt joints.

Finished edges indicated by bold lines on side view drawings.
Glazed edges indicated by arrows on side view drawings.

	• 170° Hinge • For use on BSC, BLS, SLS, BER, and ER cabinets. • Sold in pairs.	
	7299HINGE	13
	• Mirror hinge. • For use on TV and MC cabinets. • Sold in pairs.	

DESCRIPTION	MODEL	PRICE
HINGE ANGLE RESTRICTION CLIP 		
	HINGERESCLIP	13
	• For use in applications with cabinets installed at varying depths to prevent the door damage caused by opening into an adjacent cabinet. • Restricts hinges to 86° opening capability. • Works only with the 38NPOHINGE and 38CFOHINGE. • Not recommended for cabinets with roll trays specified in partial overlay styles. • Sold in pairs.	
HINGE SHIM 		
	HINGESHIMS	18
	• Install between the face frame and hinge to allow additional adjustment of doors. Can be used to reduce gap between butt doors. • Each shim is 1/32" thick and can be stacked to achieve desired overlay reduction. • Pack of 5 metal shims. • Compatible with all hinges except face-mount.	
TOUCH LATCH		
	TOUHLATCH	35
	• Nylon gray mechanism with bumper tip. • Face frame will need to be field drilled for insertion of the TOUCHLATCH, requires 25/64" (10mm) drill bit. • Can be field adjusted for door gap depth, no tools required. • For use on full overlay door styles only. • Requires a soft touch to open the door, and door must be pushed closed to reset the TOUCHLATCH mechanism. • Only for use on hinged doors, and can be used without decorative hardware. Not compatible with non-hinged doors. For drawers, pull-outs, and other non-compatible cabinets, PULLH105, PULLH106, and PULLH107 are recommended (see page 148).

SHELFPEGSCTR (pkg. 6)	6

- BRKOFFSCREW is a pack of 25 breakaway screws for use with decorative hardware pulls and knobs.
- INSTALLSCR4 and INSTALLSCREWS are screws for cabinet installation through the cabinet back to the wall studs (includes a pack of 4 or 100).
- RETCLIP250BAG: 6 retainer clips for use with glass inserts in mullion and cut-for-glass doors. For use on all styles except PureStyle™ doors.
- RETCLIP259BAG: 6 retainer clips and a variety of rubber feet for use with glass inserts in mullion and cut-for-glass doors. For use on all PureStyle™ doors only.
- SHELFPEGS are 3mm steel pins with clear plastic shoulders.
- SHELFPEGSCTR is a package of 6 clear plastic shelf clips with 0.96" usable depth with 1/4" diameter pegs used on center mullions of full depth shelves (cabinets 39" - 48" wide), BC_, BEC24, and WC_.

STACK MOULDING KITS

- Moulding stacks do not ship assembled; field assembly is required. Assembly instructions can be viewed in 20/20 spec pages and will also ship with moulding kits.
- When ordered as a kit, only one finish can be specified. To order with more than one finish, moulding pieces must be ordered separately.
- Moulding stacks include Assembly Instructions. Cleats and finish nails not included.

- How to place a stack moulding in 20/20:
 → Moulding
 → Top Mouldings or Bottom Mouldings
 → Stacked Mouldings
 → Drag and drop desired moulding stack onto wall cabinets
- Mouldings specified as 8' nominal length have a usable length range of 93" up to 99". Be sure to order the correct amount of moulding length to work around required cuts with minimal butt joints.

Diamond[®]VIBE[™] SERIES

Dear Diamond Vibe Customer,

Congratulations on your selection of Diamond Vibe cabinetry in a Painted Hardwood or Painted Hardwood with Glaze finish. Because of its unique characteristics, this finish is quite different from other cabinetry finishes you may be familiar with. Your satisfaction is important to Diamond Vibe, and we want you to fully understand the characteristics that make painted finishes so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Diamond Vibe utilizes only select solid hardwoods and veneers. The beauty of these genuine woods lies in the variation of the grain. The textures of those natural grain patterns often remain visible with Painted Hardwood finishes and should be accepted as inherent characteristics when selecting painted cabinetry.

Seam lines and hairline cracking at stile, rail and panel joints are a normal characteristic of painted finishes and should not be considered a reason for product replacement. When ordering Painted Hardwood 5-piece styles, the door's center panel will be constructed of MDF material. Over time, there may be a slight color shift in the Painted Hardwood finish due to the continued exposure to natural and artificial light sources. We mention these characteristics because neither Diamond Vibe nor your Diamond Vibe dealer can be responsible for these conditions and variations.

*Example of front joint separation**Example of front joint separation**Example of end joint separation*

Accordingly, we ask that the following agreement be signed for Painted Hardwood Finish orders.

I have read the foregoing and find the characteristic variations of Painted Hardwood finish to be desirable. As such, I agree not to hold Diamond Vibe and/or the Diamond Vibe dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

TERMS AND CONDITIONS

DIAMOND VIBE CABINETS LIFETIME LIMITED WARRANTY AND GENERAL INFORMATION

Prices and specifications in material, construction and design are subject to change without notice as conditions require, or as improvements are developed.

All orders are subject to credit approval.

To avoid errors, orders should be filled out on Diamond Vibe Cabinet forms.

All cabinets are manufactured to individual order and cannot be cancelled or changed after manufacturing has begun. Cycle ship orders cannot be changed after the cut-off date.

Returns will not be accepted without prior written authorization.

Diamond Vibe cabinets carry a Lifetime Limited Warranty. This limited warranty does not cover misuse*, improper storage, improper installation, labor costs or defects incurred during installation, storage or transportation. We reserve the right to repair or replace any defective material after field inspection by our representative. For complete warranty details, please refer to the Diamond Vibe Warranty Document.

A product count and inspection must be performed before signing the Bill of Lading. Shortage, obvious damage and occurrences of mishandling must be noted on the Bill of Lading before it is signed. Replacement orders must then be made with Diamond Vibe Customer Service. A signed Bill of Lading with no notations will indicate a complete and damage free shipment.

Sales are only to approved, authorized accounts.

Please make reference to the cabinet selection guide for information pertaining to characteristics of wood. This information will tell you the reactions that natural woods might develop under certain conditions after product is finished.

Diamond®

Make your mark.™

Styles, product availability and construction may vary slightly from those shown in this book due to material availability and/or design evolution. Specifications are subject to change without notice. Customer service is available if your design requires verification of product availability and specifications.

Product photography and illustrations have been reproduced as accurately as printing technologies permit. To ensure highest satisfaction, we strongly recommend you view an actual sample for best color, wood grain and finish representation.

When Hardwood is painted, cabinet components, doors and/or drawer fronts may be constructed of various hardwood materials and/or composite materials such as Medium Density Fiberboard (MDF) and/or High Density Fiberboard (HDF).

Diamond® has a Limited Lifetime Warranty.
